INDEPENDENT AUDITOR'S REPORT

To the Members of Parijat Industries (India) Limited (formerly known as Parijat Industries (India) Private Limited)

Report on the Audit of the Consolidated Financial Statements

Opinion

We have audited the consolidated financial statements of Parijat Industries (India) Limited (formerly known as Parijat Industries (India) Private Limited) (hereinafter referred to as "the Holding Company"), its subsidiaries and an employee welfare trust (the Holding Company and its subsidiaries and employee welfare trust together referred to as "the Group") comprising of the consolidated Balance sheet as at March 31 2026, the consolidated Statement of Profit and Loss, including other comprehensive loss, the consolidated Cash Flow Statement and the consolidated Statement of Changes in Equity for the year then ended, and notes to the consolidated financial statements, including a summary of material accounting policies and other explanatory information (hereinafter referred to as "the consolidated financial statements").

In our opinion and to the best of our information and according to the explanations given to us and based on the consideration of reports of other auditors on separate financial statements and on the other financial information of the subsidiaries and an employee welfare trust, the aforesaid consolidated financial statements give the information required by the Companies Act, 2013, as amended ("the Act") in the manner so required and give a true and fair view in conformity with the accounting principles generally accepted in India, of the consolidated state of affairs of the Group, as at March 31, 2026, their consolidated profit including other comprehensive loss, their consolidated cash flows and the consolidated statement of changes in equity for the year ended on that date.

Basis for Opinion

We conducted our audit of the consolidated financial statements in accordance with the Standards on Auditing (SAs), as specified under section 143(10) of the Act. Our responsibilities under those Standards are further described in the 'Auditor's Responsibilities for the Audit of the Consolidated Financial Statements' section of our report. We are independent of the Group in accordance with the 'Code of Ethics' issued by the Institute of Chartered Accountants of India together with the ethical requirements that are relevant to our audit of the financial statements under the provisions of the Act and the Rules thereunder, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the Code of Ethics. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the consolidated financial statements.

Other Information

The Holding Company's Board of Directors is responsible for the other information. The other information comprises the information included in the Board Report, but does not include the consolidated financial statements and our auditor's report thereon.

Our opinion on the consolidated financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the consolidated financial statements, our responsibility is to read the other information and, in doing so, consider whether such other information is materially inconsistent with the consolidated financial statements or our knowledge obtained in the audit or otherwise appears to be materially misstated. If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

S.R. BATLIBOI & CO. LLP
NEW DELHI

Responsibilities of Management for the Consolidated Financial Statements

The Holding Company's Board of Directors is responsible for the preparation and presentation of these consolidated financial statements in terms of the requirements of the Act that give a true and fair view of the consolidated financial position, consolidated financial performance including other comprehensive income, consolidated cash flows and consolidated statement of changes in equity of the Group in accordance with the accounting principles generally accepted in India, including the Indian Accounting Standards (Ind AS) specified under section 133 of the Act read with the Companies (Indian Accounting Standards) Rules, 2015, as amended, specified under section 133 of the Act. The respective Board of Directors of the companies included in the Group are responsible for maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding of the assets of their respective companies and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and the design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the consolidated financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error, which have been used for the purpose of preparation of the consolidated financial statements by the Board of Directors of the Holding Company, as aforesaid.

In preparing the consolidated financial statements, the respective Board of Directors of the companies included in the Group are responsible for assessing the ability of their respective companies to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Group or to cease operations, or has no realistic alternative but to do so.

Those respective Board of Directors of the companies included in the Group are also responsible for overseeing the financial reporting process of their respective companies.

Auditor's Responsibilities for the Audit of the Consolidated Financial Statements

Our objectives are to obtain reasonable assurance about whether the consolidated financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these consolidated financial statements.

As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the consolidated financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under section 143(3)(i) of the Act, we are also responsible for expressing our opinion on whether the Holding Company has adequate internal financial controls with reference to financial statements in place and the operating effectiveness of such controls.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based

on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the ability of the Group to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the consolidated financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Group to cease to continue as a going concern.

- Evaluate the overall presentation, structure and content of the consolidated financial statements, including the disclosures, and whether the consolidated financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

- Obtain sufficient appropriate audit evidence regarding the financial information of the entities or business activities within the Group of which we are the independent auditors, to express an opinion on the consolidated financial statements. We are responsible for the direction, supervision and performance of the audit of the financial statements of such entities included in the consolidated financial statements of which we are the independent auditors. For the other entities included in the consolidated financial statements, which have been audited by other auditors, such other auditors remain responsible for the direction, supervision and performance of the audits carried out by them. We remain solely responsible for our audit opinion.

We communicate with those charged with governance of the Holding Company regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

Other Matter

We did not audit the financial statements and other financial information, in respect of 9 subsidiaries and an employee welfare trust, whose financial statements include total assets of Rs 2,949.28 millions as at March 31, 2026, and total revenues of Rs 2,728.08 millions and net cash outflows of Rs 1.17 millions for the year ended on that date. Those financial statements and other financial information have been audited by other auditors, which financial statements, other financial information and auditor's reports have been furnished to us by the management. Our opinion on the consolidated financial statements, in so far as it relates to the amounts and disclosures included in respect of these subsidiaries and an employee welfare trust, and our report in terms of sub-sections (3) of Section 143 of the Act, in so far as it relates to the aforesaid entities, is based solely on the reports of such other auditors.

Our opinion above on the consolidated financial statements, and our report on Other Legal and Regulatory Requirements below, is not modified in respect of the above matters with respect to our reliance on the work done and the reports of the other auditors.

Report on Other Legal and Regulatory Requirements

1. As required by the Companies (Auditor's Report) Order, 2020 ("the Order"), issued by the Central Government of India in terms of sub-section (11) of section 143 of the Act, based on our audit and on the consideration of report of the other auditors on separate financial statements and the other financial information of the subsidiary companies, incorporated in India and to the extent applicable, as noted in the 'Other Matter' paragraph we give in the "Annexure 1" a statement on the matters specified in paragraph 3(xxi) of the Order.

2. As required by Section 143(3) of the Act, based on our audit and on the consideration of report of the other auditors on separate financial statements and the other financial information of subsidiaries and an employee welfare trust, as noted in the 'other matter' paragraph we report, to the extent applicable, that:

(a) We/the other auditors whose report we have relied upon have sought and obtained all the information and explanations which to the best of our knowledge and belief were necessary for the purposes of our audit of the aforesaid consolidated financial statements;

(b) In our opinion, proper books of account as required by law relating to preparation of the aforesaid consolidation of the financial statements have been kept so far as it appears from our examination of those books and reports of the other auditors except with respect to matters stated in the paragraph 2(f) and 2(i)(vi) below on reporting under Rule 11(g);

(c) The Consolidated Balance Sheet, the Consolidated Statement of Profit and Loss including the Statement of Other Comprehensive Income, the Consolidated Cash Flow Statement and Consolidated Statement of Changes in Equity dealt with by this Report are in agreement with the books of account maintained for the purpose of preparation of the consolidated financial statements;

(d) In our opinion, the aforesaid consolidated financial statements comply with the Accounting Standards specified under Section 133 of the Act, read with Companies (Indian Accounting Standards) Rules, 2015, as amended specified under section 133 of the Act.

(e) On the basis of the written representations received from the directors of the Holding Company as on March 31, 2026 taken on record by the Board of Directors of the Holding Company and the reports of the statutory auditors who are appointed under Section 139 of the Act, of its subsidiary companies, none of the directors of the Group's companies, incorporated in India, is disqualified as on March 31, 2026 from being appointed as a director in terms of Section 164 (2) of the Act;

(f) The modification relating to the maintenance of accounts and other matters connected therewith are as stated in paragraph (b) above on reporting under Section 143(3)(b) and paragraph 2(i)(vi) below on reporting under Rule 11(g).

(g) With respect to the adequacy of the internal financial controls with reference to consolidated financial statements of the Holding Company and its subsidiary companies to the extent applicable, and the operating effectiveness of such controls, based on our audit and on the consideration of report of the other auditors on separate financial statements and the other financial information of such subsidiary companies, incorporated in India and to the extent applicable, as noted in the 'Other Matter' paragraph, refer to our separate Report in "Annexure 2" to this report;

(h) In our opinion and based on the consideration of reports of other statutory auditors of the subsidiaries, the managerial remuneration for the year ended March 31, 2026, has been paid / provided by the Holding Company, its subsidiaries incorporated in India to their directors in accordance with the provisions of section 197 read with Schedule V to the Act;

(i) With respect to the other matters to be included in the Auditor's Report in accordance with Rule 11 of the Companies (Audit and Auditors) Rules, 2014, as amended, in our opinion and to the best of our information and according to the explanations given to us and based on the consideration of the report of the other auditors on separate financial statements as also the other financial information of the subsidiaries, and an employee welfare trust, as noted in the 'Other matter' paragraph:

i. The consolidated financial statements disclose the impact of pending litigations on its consolidated financial position of the Group in its consolidated financial statements – Refer Note 25(A) to the consolidated financial statements;

ii. The Group did not have any material foreseeable losses in long-term contracts including derivative contracts during the year ended March 31, 2026;

iii. There were no amounts which were required to be transferred to the Investor Education and Protection Fund by the Holding Company and its subsidiaries, incorporated in India during the year ended March 31, 2026.

S.R. BATLIBOI & CO. LLP
NEW DELHI

iv. a) The respective managements of the Holding Company and its subsidiaries which are companies incorporated in India whose financial statements have been audited under the Act have represented to us and the other auditors of such subsidiary companies respectively that, to the best of its knowledge and belief, as disclosed in the note 26(13)(vi) to the consolidated financial statements, no funds have been advanced or loaned or invested (either from borrowed funds or share premium or any other sources or kind of funds) by the Holding Company or any of such subsidiaries to or in any other person(s) or entity(ies), including foreign entities ("Intermediaries"), with the understanding, whether recorded in writing or otherwise, that the Intermediary shall, whether, directly or indirectly lend or invest in other persons or entities identified in any manner whatsoever by or on behalf of the respective Holding Company or any of such subsidiaries ("Ultimate Beneficiaries") or provide any guarantee, security or the like on behalf of the Ultimate Beneficiaries;

b) The respective managements of the Holding Company and its subsidiaries which are companies incorporated in India whose financial statements have been audited under the Act have represented to us and the other auditors of such subsidiary companies respectively that, to the best of its knowledge and belief, as disclosed in the note 26(13)(v) to the consolidated financial statements, no funds have been received by the respective Holding Company or any of such subsidiaries from any person(s) or entity(ies), including foreign entities ("Funding Parties"), with the understanding, whether recorded in writing or otherwise, that the Holding Company or any of such subsidiaries shall, whether, directly or indirectly, lend or invest in other persons or entities identified in any manner whatsoever by or on behalf of the Funding Party ("Ultimate Beneficiaries") or provide any guarantee, security or the like on behalf of the Ultimate Beneficiaries; and

c) Based on the audit procedures that have been considered reasonable and appropriate in the circumstances performed by us and that performed by the auditors of the subsidiaries which are companies incorporated in India whose financial statements have been audited under the Act, nothing has come to our or other auditor's notice that has caused us or the other auditors to believe that the representations under sub-clause (a) and (b) contain any material mis-statement.

v) The final dividend paid by the Holding Company during the year in respect of the same declared for the previous year is in accordance with section 123 of the Act to the extent it applies to payment of dividend.

As stated in note 11 (D) to the Consolidated financial statement, the interim dividend declared by the holding Company until the date of this audit report is in accordance with section 123 of the Act.

vi) Based on our examination, which included test checks and review of Service Organisation Control Report, we noted that the holding company has used accounting software for maintaining its books of account that contains an audit trail (edit log) facility and the same has operated for all relevant transactions recorded in the software throughout the year. In the absence of audit trail opinion in the Service Organisation Control Report we are unable to comment whether the audit trail feature at the database level exits and operates effectively throughout the year as described in note 26(12) to the consolidated financial statement.

Further, during the course of our audit, we did not come across any instance where the audit trail feature had been tampered with in respect of the accounting software where such feature was enabled.

Additionally, the audit trail has been preserved by the holding company as per the statutory requirements for record retention to the extent it was enabled (for the period July 11, 2024 to March 31, 2025). The audit trail feature has not been preserved for financial year ended March 31, 2024 as required by statutory requirements as stated in Note 26(12) to the consolidated financial statements.

Annexure 2 to the independent auditor's report of even date on the consolidated financial statements of Parijat Industries (India) Limited (formerly known as Parijat Industries (India) Private Limited)

Report on the Internal Financial Controls under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013 ("the Act")

In conjunction with our audit of the consolidated financial statements of Parijat Industries (India) Limited (formerly known as Parijat Industries (India) Private Limited) ("the Company") (hereinafter referred to as the "Holding Company") as of and for the year ended March 31, 2026, we have audited the internal financial controls with reference to consolidated financial statements of the Holding Company and its subsidiaries (the Holding Company and its subsidiaries together referred to as "the Group"), which are companies incorporated in India, as of that date.

Management's Responsibility for Internal Financial Controls

The respective Board of Directors of the companies included in the Group, which are companies incorporated in India, are responsible for establishing and maintaining internal financial controls based on the internal financial control over financial reporting criteria established by the Holding Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India (ICAI). These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to the respective company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Companies Act, 2013.

Auditor's Responsibility

Our responsibility is to express an opinion on the Holding Company's internal financial controls with reference to consolidated financial statements based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting (the "Guidance Note") and the Standards on Auditing, specified under section 143(10) of the Act, to the extent applicable to an audit of internal financial controls, both, issued by ICAI. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls with reference to consolidated financial statements was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls with reference to these consolidated financial statements and their operating effectiveness. Our audit of internal financial controls with reference to consolidated financial statements included obtaining an understanding of internal financial controls with reference to consolidated financial statements, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgement, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained and the audit evidence obtained by the other auditors in terms of their reports referred to in the Other Matters paragraph below, is sufficient and appropriate to provide a basis for our audit opinion on the internal financial controls with reference to consolidated financial statements.

Meaning of Internal Financial Controls With Reference to Consolidated Financial Statements

A company's internal financial control with reference to consolidated financial statements is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial control with reference to consolidated financial statements includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect

S.R. BATLIBOI & CO. LLP NEW DELHI

the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorisations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorised acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Inherent Limitations of Internal Financial Controls With Reference to Consolidated Financial Statements

Because of the inherent limitations of internal financial controls with reference to consolidated financial statements, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls with reference to consolidated financial statements to future periods are subject to the risk that the internal financial controls with reference to consolidated financial statements may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

In our opinion, the Group , has maintained in all material respects, adequate internal financial controls with reference to consolidated financial statements and such internal financial controls with reference to consolidated financial statements were operating effectively as at March 31, 2026, based on the internal control over financial reporting criteria established by the Holding Company considering the essential components of internal control stated in the Guidance Note issued by the ICAI.

Other Matter

Our report under Section 143(3)(i) of the Act on the adequacy and operating effectiveness of the internal financial controls with reference to consolidated financial statements of the Holding Company, in so far as it relates to two subsidiaries which are companies incorporated in India, is based on the corresponding reports of the auditors of such subsidiaries incorporated in India.

1 CORPORATE INFORMATION

The Consolidated Financial Statements comprise financial statements of Parijat Industries (India) Limited *(formerly known as Parijat Industries (India) Private Limited)* (CIN: U24219DL1995PLC161189) ("the Company" or "the Holding Company" or "the Parent Company") and its subsidiaries and an employee welfare Trust (collectively referred to as "Group") for the year ended March 31, 2026. The Parent company is a public limited company domiciled in India and incorporated under the provisions of the Companies Act ("the Act") applicable in India.

The Group is engaged in the business of manufacturing, trading, import and export of various agrochemicals (primarily pesticides) and other related products, which are used to enhance the productivity of agriculture. The Company has its manufacturing facilities in India and sells both in India and across the globe. The registered office of the company is located at M-77, 1st & 2nd floor, M-Block market, Greater Kailash, New Delhi-110048 and Corporate office is located at Plot No. 239, 3rd Floor, Okhla Industrial Estate Phase 3 Rd, Okhla, New Delhi, 110020 and its corporate identification number has been updated from CIN: U24219DL1995PTC161189 to CIN: U24219DL1995PLC161189.

Information about the Group's structure is provided in Note 26(10). Information about other related party relationships and transactions of the Group are provided in note 26(3) to these consolidated financial statement.

The consolidated financial statement were approved in accordance with a resolution of the board of directors on September 05, 2026.

2 MATERIAL ACCOUNTING POLICIES

2.01 Statement of compliance and basis of preparation of Consolidated Financial Statements

The consolidated financial statements of the Group have been prepared in accordance with Indian Accounting Standards (Ind AS) notified under Companies (Indian Accounting Standards) Rules, 2015 (as amended from time to time) and presentation requirements of Division II of Schedule III to the Companies Act, 2013, (Ind AS compliant Schedule III), as applicable to the consolidated financial statements.

The company has prepared the consolidated financial statements on the basis that it will continue to operate as going concern. These policies have been consistently applied to all the years presented, unless otherwise stated. The consolidated financial statements have been prepared on a historical cost basis, except for the following assets and liabilities:
(i) Certain financial assets and liabilities that is measured at fair value or amortised cost (refer accounting policy regarding financial instruments),
(ii) Assets held for sale-measured at fair value less cost to sell
(iii) Defined benefit plans-plan assets measured at fair value
(iv) Share based payments.

The consolidated financial statements have been presented in Indian Rupees (Rs.) and all values have been rounded to the nearest millions, except when otherwise indicated.

2.02 Basis of consolidation

The consolidated financial statements comprise the financial statements of the Parent company and its subsidiaries (collectively referred to as "Group") as at March 31, 2026. Control is achieved when the Group is exposed, or has rights, to variable returns from its involvement with the investee and has the ability to affect those returns through its power over the investee. Specifically, the Group controls an investee if and only if the Group has:

- Power over the investee (i.e. existing rights that give it the current ability to direct the relevant activities of the investee)
- Exposure, or rights, to variable returns from its involvement with the investee, and
- The ability to use its power over the investee to affect its returns

Generally, there is a presumption that a majority of voting rights result in control. To support this presumption and when the Group has less than a majority of the voting or similar rights of an investee, the Group considers all relevant facts and circumstances in assessing whether it has power over an investee, including:

- The contractual arrangement with the other vote holders of the investee
- Rights arising from other contractual arrangements
- The Group's voting rights and potential voting rights
- The size of the group's holding of voting rights relative to the size and dispersion of the holdings of the other voting rights holders

The Group re-assesses whether or not it controls an investee if facts and circumstances indicate that there are changes to one or more of the three elements of control. Consolidation of a subsidiary begins when the Group obtains control over the subsidiary and ceases when the Group loses control of the subsidiary. Assets, liabilities, income and expenses of a subsidiary acquired or disposed of during the year are included in the consolidated financial statements from the date the Group gains control until the date the Group ceases to control the subsidiary.

Consolidated financial statements are prepared using uniform accounting policies for like transactions and other events in similar circumstances. If a member of the Group uses accounting policies other than those adopted in the consolidated financial statements for like transactions and events in similar circumstances, appropriate adjustments are made to that Group member's financial statements in preparing the consolidated financial statements to ensure conformity with the Group's accounting policies.

The financial statements of all entities used for the purpose of consolidation are drawn up to same reporting date as that of the parent company, i.e., year ended on March 31, 2026. When the end of the reporting period of the parent is different from that of a subsidiary, the subsidiary prepares, for consolidation purposes, additional financial information as of the same date as the financial statements of the parent to enable the parent to consolidate the financial information of the subsidiary, unless it is impracticable to do so or there are no significant transaction or event between the date of those financial statements and date of financial statements of parent company.

S.R. BATLIBOI & CO. LLP
NEW DELHI

2.03 Consolidation procedure:

a) Subsidiaries:

(i) Combine like items of assets, liabilities, equity, income, expenses and cash flows of the parent with those of its subsidiaries. For this purpose, income and expenses of the subsidiary are based on the amounts of the assets and liabilities recognised in the consolidated financial statements at the acquisition date.

(ii) Offset (eliminate) the carrying amount of the parent's investment in each subsidiary and the parent's portion of equity of each subsidiary. Business combinations policy explains how to account for any related goodwill.

(iii) Eliminate in full intragroup assets and liabilities, equity, income, expenses and cash flows relating to transactions between entities of the group (profits or losses resulting from intragroup transactions that are recognised in assets, such as inventory and fixed assets, are eliminated in full). Intragroup losses may indicate an impairment that requires recognition in the consolidated financial statements. Ind AS 12 Income Taxes applies to temporary differences that arise from the elimination of profits and losses resulting from intragroup transactions.

Profit or loss and each component of other comprehensive income (OCI) are attributed to the equity holders of the parent of the Group and to the non-controlling interests, even if this results in the non-controlling interests having a deficit balance. When necessary, adjustments are made to the financial statements of subsidiaries to bring their accounting policies into line with the Group's accounting policies. All intra-group assets and liabilities, equity, income, expenses and cash flows relating to transactions between members of the Group are eliminated in full on consolidation.

A change in the ownership interest of a subsidiary, without a loss of control, is accounted for as an equity transaction. If the Group loses control over a subsidiary, it:

- Derecognises the assets (including goodwill) and liabilities of the subsidiary at their carrying amounts at the date when control is lost.
- Derecognises the carrying amount of any non-controlling interests.
- Derecognises the cumulative translation differences recorded in equity.
- Recognises the fair value of the consideration received
- Recognises the fair value of any investment retained.
- Recognises any surplus or deficit in profit or loss.
- Recognise that distribution of shares of subsidiary to Group in Group's capacity as owners
- Reclassifies the parent's share of components previously recognised in OCI to profit or loss or transferred directly to retained earnings, if required by other Ind ASs as would be required if the Group had directly disposed of the related assets or liabilities.

The Group treats transaction with non-controlling interests that do not result in a loss of control as transaction with the equity owners of the Group. A change in ownership interest results in adjustment between the carrying amounts of the controlling and non-controlling interest to reflect their relative interest in the subsidiary. Any difference between the amount of the adjustment to non-controlling interests and any consideration paid or received is recognised within equity.

b) Business combination and goodwill

Business combinations other than those common control transactions are accounted for using the acquisition method. The cost of an acquisition is measured as the aggregate of the consideration transferred measured at acquisition date fair value and the amount of any non-controlling interests in the acquiree. For each business combination, the Group elects whether to measure the non-controlling interests in the acquiree at fair value or at the proportionate share of the acquiree's identifiable net assets. Acquisition-related costs are expensed as incurred.

Consideration transferred includes the fair values of the assets transferred, liabilities incurred by the Group to the previous owners of the acquiree, and equity interests issued by the Group . Consideration transferred also includes the fair value of any contingent consideration. Consideration transferred does not include amounts related to the settlement of pre-existing relationships.

If an obligation to pay contingent consideration that meets the definition of a financial instrument is classified as equity, then it is not re-measured and the settlement is accounted for within other equity. Otherwise, other contingent consideration is re-measured at fair value at each reporting date and subsequent changes in the fair value of the contingent consideration are recorded in the Consol Statement of Profit and Loss. A contingent liability of the acquiree is assumed in a business combination only if such a liability represents a present obligation and arises from a past event, and its fair value can be measured reliably. On an acquisition by-acquisition basis, the Group recognises any noncontrolling interest in the acquiree either at fair value or at the non-controlling interest's proportionate share of the acquiree's identifiable net assets. Transaction costs that the Group incurs in connection with a business combination, such as Stamp Duty for title transfer in the name of the Group, finder's fees, legal fees, due diligence fees and other professional and consulting fees, are expensed as incurred.

The Group determines that it has acquired a business when the acquired set of activities and assets include an input and a substantive process that together significantly contribute to the ability to create outputs. The acquired process is considered substantive if it is critical to the ability to continue producing outputs, and the inputs acquired include an organised workforce with the necessary skills, knowledge, or experience to perform that process or it significantly contributes to the ability to continue producing outputs and is considered unique or scarce or cannot be replaced without significant cost, effort, or delay in the ability to continue producing outputs.

At the acquisition date, the identifiable assets acquired, and the liabilities assumed are recognised at their acquisition date fair values. For this purpose, the liabilities assumed include contingent liabilities representing present obligation and they are measured at their acquisition fair values irrespective of the fact that outflow of resources embodying economic benefits is not probable. However, the following assets and liabilities acquired in a business combination are measured at the basis indicated below:

S.R. BATLIBOI & CO. LLP
NEW DELHI

(a) Deferred tax assets or liabilities, and the liabilities or assets related to employee benefit arrangements are recognised and measured in accordance with Ind AS 12 Income Tax and Ind AS 19 Employee Benefits respectively.

(b) Potential tax effects of temporary differences and carry forwards of an acquiree that exist at the acquisition date or arise as a result of the acquisition are accounted in accordance with Ind AS 12.

(c) Liabilities or equity instruments related to share based payment arrangements of the acquiree or share – based payments arrangements of the Group entered into to replace share-based payment arrangements of the acquiree are measured in accordance with Ind AS 102 Share-based Payments at the acquisition date.

(d) Reacquired rights are measured at a value determined on the basis of the remaining contractual term of the related contract. Such valuation does not consider potential renewal of the reacquired right.

(e) Assets (or disposal groups) that are classified as held for sale in accordance with Ind AS 105 Non-current assets held for Sale and Discontinued Operations are measured in accordance with that Standard.

When the Group acquires a business, it assesses the financial assets and liabilities assumed for appropriate classification and designation in accordance with the contractual terms, economic circumstances and pertinent conditions as at the acquisition date. This includes the separation of embedded derivatives in host contracts by the acquiree.

If the business combination is achieved in stages, any previously held equity interest is re-measured at its acquisition date fair value and any resulting gain or loss is recognised in profit or loss or OCI, as appropriate.

Any contingent consideration to be transferred by the acquirer is recognised at fair value at the acquisition date. Contingent consideration classified as an asset or liability that is a financial instrument and within the scope of Ind AS 109 Financial Instruments, is measured at fair value with changes in fair value recognised in profit or loss in accordance with Ind AS 109. If the contingent consideration is not within the scope of Ind AS 109, it is measured in accordance with the appropriate Ind AS and shall be recognised in profit or loss. Contingent consideration that is classified as equity is not re-measured at subsequent reporting dates and subsequent its settlement is accounted for within equity.

Goodwill is initially measured at cost, being the excess of the aggregate of the consideration transferred and the amount recognised for non-controlling interests, and any previous interest held, over the net identifiable assets acquired and liabilities assumed. If the fair value of the net assets acquired is in excess of the aggregate consideration transferred, the Group re-assesses whether it has correctly identified all of the assets acquired and all of the liabilities assumed and reviews the procedures used to measure the amounts to be recognised at the acquisition date. If the reassessment still results in an excess of the fair value of net assets acquired over the aggregate consideration transferred, then the gain is recognised in OCI and accumulated in equity as capital reserve. However, if there is no clear evidence of bargain purchase, the entity recognises the gain directly in equity as capital reserve, without routing the same through OCI.

After initial recognition, goodwill is measured at cost less any accumulated impairment losses. For the purpose of impairment testing, goodwill acquired in a business combination is, from the acquisition date, allocated to each of the Group's cash-generating units that are expected to benefit from the combination, irrespective of whether other assets or liabilities of the acquiree are assigned to those units.

A cash generating unit to which goodwill has been allocated is tested for impairment annually, or more frequently when there is an indication that the unit may be impaired. If the recoverable amount of the cash generating unit is less than its carrying amount, the impairment loss is allocated first to reduce the carrying amount of any goodwill allocated to the unit and then to the other assets of the unit pro rata based on the carrying amount of each asset in the unit. Any impairment loss for goodwill is recognised in profit or loss. An impairment loss recognised for goodwill is not reversed in subsequent periods.

Where goodwill has been allocated to a cash-generating unit and part of the operation within that unit is disposed of, the goodwill associated with the disposed operation is included in the carrying amount of the operation when determining the gain or loss on disposal. Goodwill disposed in these circumstances is measured based on the relative values of the disposed operation and the portion of the cash-generating unit retained.

If the initial accounting for a business combination is incomplete by the end of the reporting period in which the combination occurs, the Group reports provisional amounts for the items for which the accounting is incomplete. Those provisional amounts are adjusted through goodwill during the measurement period, or additional assets or liabilities are recognised, to reflect new information obtained about facts and circumstances that existed at the acquisition date that, if known, would have affected the amounts recognized at that date. These adjustments are called as measurement period adjustments. The measurement period does not exceed one year from the acquisition date.

2.04 Current versus non-current classification

The Group presents assets and liabilities in the balance sheet based on current/non- current classification. An asset is treated as current when it is:

- Expected to be realized or intended to be sold or consumed in normal operating cycle

- Held primarily for purpose of trading

- Expected to be realized within twelve months after the reporting period, or

- Cash or cash equivalent unless restricted from being exchanged or used to settle a liability for at least twelve months after the reporting period

All other assets are classified as non-current.

A liability is current when:

- It is expected to be settled in normal operating cycle

- It is held primarily for purpose of trading

- It is due to be settled within twelve months after the reporting period, or

- There is no unconditional right to defer the settlement of the liability for at least twelve months after the reporting period

- The terms of the liability that could, at the option of the counterparty, result in its settlement by the issue of equity instruments do not affect its classification.

All other liabilities are classified as non current.

S.R. BATLIBOI & CO. LLP
NEW DELHI

Deferred tax assets and deferred tax liabilities are classified as non- current assets and liabilities.

The operating cycle is the time between the acquisition of assets for processing and their realization in cash and cash equivalents. the Group has identified twelve months as its operating cycle.

2.05 Property, plant and equipment

Freehold Land is carried at historical cost. All other items of Property, Plant and equipment are stated at cost, less accumulated depreciation and accumulated impairment losses, if any. Capital work in progress is stated at cost, net of accumulated impairment loss, if any. The historical cost comprises of purchase price, taxes, duties, freight and other incidental expenses directly attributable and related to acquisition and installation of the concerned assets and are further adjusted by the amount of input tax credit availed wherever applicable. Any trade discounts and rebates are deducted in arriving at the purchase price.

Such cost includes the cost of replacing part of the plant and equipment and Borrowings costs for long-term construction projects if the recognition criteria are met. When significant parts of plant and equipment are required to be replaced at intervals, the Group depreciates them separately based on their specific useful lives. Likewise, when a major inspection is performed, its cost is recognised in the carrying amount of the plant and equipment as a replacement if the recognition criteria are satisfied. All other repair and maintenance costs are recognised in profit or loss as incurred. The present value of the expected cost for the decommissioning of an asset after its use is included in the cost of the respective asset if the recognition criteria for a provision are met. The cost of a self-constructed item of property, plant and equipment comprises the cost of materials and direct labour, any other costs directly attributable to bringing the item to working condition for its intended use, and estimated costs of dismantling and removing the item and restoring the site on which it is located.

Buildings are measured at fair value less accumulated depreciation on buildings and impairment losses recognised at the date of revaluation. Valuations are performed with sufficient frequency to ensure that the carrying amount of a revalued asset does not differ materially from its fair value.

The Group identifies and determines cost of each component/ part of the asset separately, if the component/ part has a cost which is significant to the total cost of the asset and has useful life that is materially different from that of the remaining asset

Items of stores and spares that meet the definition of property, plant and equipment are capitalized at cost and depreciated over their useful life. Otherwise, such items are classified as inventories

Subsequent costs are included in asset's carrying amount or recognised as separate assets, as appropriate, only when it is probable that future economic benefit associated with the item will flow to the Group and the cost of item can be measured reliably.

An item of property, plant and equipment and any significant part initially recognised is derecognized upon disposal or when no future economic benefits are expected from its use or disposal. Any gain or loss arising on derecognition of the asset (calculated as the difference between the net disposal proceeds and the carrying amount of the asset) is included in the income statement when the asset is derecognised

The residual values, useful lives and methods of depreciation of property, plant and equipment are reviewed at each financial year end and adjusted prospectively, if appropriate.

Depreciation on property, plant and equipment is calculated on prorata basis on straight-line method using the useful lives of the assets estimated by management. The useful life is as follows:

Assets	Useful life (in years)	Useful life as per Schedule II (in years)
Buildings	30	30
Roads RCC	10	10
Plant and machinery	1-3,5,10 & 15	15
Plant and machinery - vessels & storage tank	20	15
Computers including networking,equipment's	3	3
Vehicles	8-10	8
Furniture and fixtures	10	10
Office equipment	5	5

The useful lives have been determined based on technical evaluation done by the management's specialist. The management, based on its technical assessment, has estimated the useful lives of certain plant and machinery as 1-3, 5, 10, 15 & 20 years and vehicles as 8-10 years, which are different from those indicated in Schedule II based on nature of underlying asset and its use. The residual values are not more than 5% of the original cost of the assets. The asset's residual values and useful lives are reviewed annually and adjusted if appropriate.

Gains or losses arising from derecognition of property, plant and equipment are measured as the difference between the net disposal proceeds and the carrying amount of the asset and are recognized in the statement of profit and loss when the asset is derecognized.

The Group reviews the estimated residual values and expected useful lives of assets at least annually. In particular, the Group considers the impact of health, safety and environmental legislation in its assessment of expected useful lives and estimated residual values. Furthermore, the Group considers climate-related matters, including physical and transition risks. Specifically, the Group determines whether climate-related legislation and regulations might impact either the useful life or residual values, e.g., by banning or restricting the use of the Group's fossil fuel-driven machinery and equipment or imposing additional energy efficiency requirements on the Group's buildings and office properties.

2.06 Investment properties

Investment properties are measured initially at cost, including transaction costs. Subsequent to initial recognition, investment properties are stated at cost less accumulated depreciation and accumulated impairment loss, if any.

The cost includes the cost of replacing parts and borrowings costs for long-term construction projects if the recognition criteria are met. When significant parts of the investment properties are required to be replaced at intervals, the Group depreciates them separately based on their specific useful lives. All other repair and maintenance costs are recognised in profit or loss as incurred.

The Group depreciates building component of investment property over 30 years from the date of original purchase.

The Group, based on technical assessment made by technical expert and management estimate, depreciates the building over estimated useful lives which are different from the useful life prescribed in Schedule II to the Companies Act, 2013. The management believes that these estimated useful lives are realistic and reflect fair approximation of the period over which the assets are likely to be used.

Though the Group measures investment properties using cost-based measurement, the fair value of investment properties are disclosed in the notes. Fair values are determined based on an annual evaluation performed by an accredited external independent valuer applying a valuation model recommended by the International Valuation Standards Committee.

Investment properties are derecognised either when they have been disposed of or when they are permanently withdrawn from use and no future economic benefit is expected from their disposal. The difference between the net disposal proceeds and the carrying amount of the asset is recognised in profit or loss in the period of derecognition. In determining the amount of consideration from the derecognition of investment properties the Group considers the effects of variable consideration, existence of a significant financing component, non-cash consideration, and consideration payable to the buyer (if any).

Transfers are made to (or from) investment properties only when there is a change in use. Transfers between investment property, owner-occupied property and inventories do not change the carrying amount of the property transferred and they do not change the cost of that property for measurement or disclosure purposes.

2.07 Intangible assets

Intangible assets acquired separately are measured on initial recognition at cost. Cost of intangible assets acquired in business combination is their fair value at the date of acquisition. Following initial recognition, intangible assets are carried at cost less accumulated amortization and accumulated impairment losses, if any. Internally generated intangibles, excluding capitalized development cost, are not capitalized and the related expenditure is reflected in statement of profit and loss in the period in which the expenditure is incurred. Cost comprises the purchase price and any attributable cost of bringing the asset to its working condition for its intended use. Internally generated intangibles, excluding capitalised development costs, are not capitalised and the related expenditure is reflected in profit or loss in the period in which the expenditure is incurred.

The useful lives of intangible assets are assessed as either finite or indefinite. Intangible assets with finite lives are amortized over their useful economic lives and assessed for impairment whenever there is an indication that the intangible asset may be impaired. The amortization period and the amortization method for an intangible asset with a finite useful life is reviewed at least at the end of each reporting period. Changes in the expected useful life or the expected pattern of consumption of future economic benefits embodied in the asset is accounted for by changing the amortization period or method, as appropriate, and are treated as changes in accounting estimates. The amortization expense on intangible assets with finite lives is recognized in the statement of profit and loss unless such expenditure forms part of carrying value of another asset.

The amortization period and the amortization method are reviewed at least at each financial year end. If the expected useful life of the asset is significantly different from previous estimates, the amortization period is changed accordingly. If there has been a significant change in the expected pattern of economic benefits from the asset, the amortization method is changed to reflect the changed pattern.

Payments to third parties that generally take the form of up-front payments in the form of data compensation costs where studies have already approved by authorities in a country are capitalized since the probability of expected future economic benefits criteria is always considered to be satisfied for separately acquired Intangible Asset.

An intangible asset is derecognised upon disposal (i.e., at the date the recipient obtains control) or when no future economic benefits are expected from its use or disposal. Any gain or loss arising upon derecognition of the asset (calculated as the difference between the net disposal proceeds and the carrying amount of the asset) is included in the statement of profit and loss, when the asset is derecognised.

Intangible assets with finite useful life are amortized on a straight line basis over their estimated useful life as under

Assets	Useful life (in years)
Computer Software	5
Product Registration	5
Technical Know How	5
Trademarks	5

Research and development cost

Research costs are expensed as incurred. Development expenditure incurred on an individual project is recognized as an intangible asset when the Group can demonstrate all the following:

i) The technical feasibility of completing the intangible asset so that it will be available for use or sale.

ii) Its intention to complete the asset;

iii) Its ability to use or sale the asset;

iv) How the asset will generate future economic benefits;

v) The availability of adequate resources to complete the development and to use or sale the asset; and

vi) The ability to measure reliably the expenditure attributable to the intangible asset during development.

Following the initial recognition of the development expenditure as an asset, the cost model is applied requiring the asset to be carried at cost less any accumulated amortization and accumulated impairment losses. Amortization of the asset begins when development is complete and the asset is available for use. It is amortized on straight line basis over the estimated useful life. During the period of development, the asset is tested for impairment annually.

2.08 Non-current assets held for sale

The Group classifies non-current assets as held for sale if their carrying amounts will be recovered principally through a sale rather than through continuing use. Such non-current assets classified as held for sale are measured at the lower of their carrying amount and fair value less costs to sell . Any expected loss is recognised immediately in the statement of profit and loss.

The criteria for held for sale classification is regarded as met only when the assets is available for immediate sale in its present condition, subject only to terms that are usual and customary for sales of such assets, its sale is highly probable; and it will genuinely be sold. The Group treats sale of the asset to be highly probable when:

(i) The appropriate level of management is committed to a plan to sell the asset.

(ii) An active programme to locate a buyer and complete the plan has been initiated (if applicable)

(iii) The asset is being actively marketed for sale at a price that is reasonable in relation to its current fair value,

(iv) The sale is expected to qualify for recognition as a completed sale within one year from the date of classification , and

(v) Actions required to complete the plan indicate that it is unlikely that significant changes to the plan will be made or that the plan will be withdrawn.

The criteria for held for sale classification is regarded as met only when the sale is highly probable and the asset is available for immediate sale in its present condition and the assets must have actively marketed for sale at a price that is reasonable in relation to its current fair value. Actions required to complete the sale should indicate that it is unlikely that significant changes to the plan to sale these assets will be made. Management must be committed to the sale, which should be expected to qualify for recognition as a completed sale within one year from the date of classification.

Property, plant and equipment and intangible assets once classified as held for sale are not depreciated or amortised. Assets and liabilities classified as held for sale are presented separately as current items in the balance sheet.

2.09 Impairment of non- financial assets

The Group assesses, at each reporting date, whether there is an indication that an asset may be impaired. If any indication exists, or when annual impairment testing for an asset is required, the Group estimates the asset's recoverable amount. An asset's recoverable amount is the higher of an asset's or cash-generating unit's (CGU) fair value less costs of disposal and its value in use. The recoverable amount is determined for an individual asset, unless the asset does not generate cash inflows that are largely independent of those from other assets or groups of assets. When the carrying amount of an asset or CGU exceeds its recoverable amount, the asset is considered impaired and is written down to its recoverable amount.

In assessing value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset. In determining fair value less costs of disposal, recent market transactions are taken into account. If no such transactions can be identified, an appropriate valuation model is used. These calculations are corroborated by valuation multiples, quoted share prices for publicly traded companies or other available fair value indicators.

The Group bases its impairment calculation on detailed budgets and forecast calculations, which are prepared separately for each of the Group's CGUs to which the individual assets are allocated. These budgets and forecast calculations generally cover a period of five years. For longer periods, a long-term growth rate is calculated and applied to project future cash flows after the fifth year. To estimate cash flow projections beyond periods covered by the most recent budgets/forecasts, the Group extrapolates cash flow projections in the budget using a steady or declining growth rate for subsequent years, unless an increasing rate can be justified. In any case, this growth rate does not exceed the long-term average growth rate for the products, industries, or country or countries in which the Group operates, or for the market in which the asset is used.

For assets excluding intangible assets having goodwill, an assessment is made at each reporting date to determine whether there is an indication that previously recognised impairment losses no longer exist or have decreased. If such indication exists, the Group estimates the asset's or CGU's recoverable amount. A previously recognised impairment loss is reversed only if there has been a change in the assumptions used to determine the asset's recoverable amount since the last impairment loss was recognised. The reversal is limited so that the carrying amount of the asset does not exceed its recoverable amount, nor exceed the carrying amount that would have been determined, net of depreciation, had no impairment loss been recognised for the asset in prior years. Such reversal is recognised in the statement of profit and loss unless the asset is carried at a revalued amount, in which case, the reversal is treated as a revaluation increase.

Goodwill is tested for impairment annually and when circumstances indicate that the carrying value may be impaired. Impairment is determined for goodwill by assessing the recoverable amount of each CGU (or group of CGUs) to which the goodwill relates. When the recoverable amount of the CGU is less than its carrying amount, an impairment loss is recognised. Impairment losses relating to goodwill cannot be reversed in future periods.

2.10 Financial instruments

A financial instrument is any contract that gives rise to a financial asset of one entity and a financial liability or equity instrument of another entity.

(i) Financial Assets

Initial recognition and measurement

Financial assets are classified, at initial recognition, and subsequently measured at amortised cost, fair value through other comprehensive income (OCI), and fair value through profit or loss.

The classification of financial assets at initial recognition depends on the financial asset's contractual cash flow characteristics and the Group's business model for managing them. With the exception of trade receivables that do not contain a significant financing component or for which the Group has applied the practical expedient, the Group initially measures a financial asset at its fair value plus, in the case of a financial asset not at fair value through profit or loss, transaction costs. Trade receivables that do not contain a significant financing component or for which the Group has applied the practical expedient are measured at the transaction price determined under Ind AS 115. Refer to the accounting policies in note 2.14 Revenue from contracts with customers.

In order for a financial asset to be classified and measured at amortised cost or fair value through OCI, it needs to give rise to cash flows that are 'solely payments of principal and interest (SPPI)' on the principal amount outstanding. This assessment is referred to as the SPPI test and is performed at an instrument level. Financial assets with cash flows that are not SPPI are classified and measured at fair value through profit or loss, irrespective of the business model.

The Group's business model for managing financial assets refers to how it manages its financial assets in order to generate cash flows. The business model determines whether cash flows will result from collecting contractual cash flows, selling the financial assets, or both. Financial assets classified and measured at amortised cost are held within a business model with the objective to hold financial assets in order to collect contractual cash flows while financial assets classified and measured at fair value through OCI are held within a business model with the objective of both holding to collect contractual cash flows and selling.

Purchases or sales of financial assets that require delivery of assets within a time frame established by regulation or convention in the marketplace (regular way trades) are recognised on the trade date, i.e., the date that the Group commits to purchase or sell the asset.

Subsequent measurement

For purposes of subsequent measurement, financial assets are classified in four categories:

- Financial assets at amortised cost (debt instruments).
- Financial assets at fair value through other comprehensive income (FVTOCI) with recycling of cumulative gains and losses (debt instruments).
- Financial assets designated at fair value through OCI with no recycling of cumulative gains and losses upon derecognition (equity instruments).
- Financial assets at fair value through profit or loss.

Financial assets at amortised cost (debt instruments)

A 'financial asset' is measured at the amortised cost if both the following conditions are met:

a) The asset is held within a business model whose objective is to hold assets for collecting contractual cash flows, and
b) Contractual terms of the asset give rise on specified dates to cash flows that are solely payments of principal and interest (SPPI) on the principal amount outstanding.

This category is the most relevant to the Group. After initial measurement, such financial assets are subsequently measured at amortised cost using the effective interest rate (EIR) method and are subject to impairment as per the accounting policy applicable to 'Impairment of financial assets.' Amortised cost is calculated by taking into account any discount or premium on acquisition and fees or costs that are an integral part of the EIR. The EIR amortisation is included in other income in the profit or loss. The losses arising from impairment are recognised in the profit or loss. The Group's financial assets at amortised cost includes trade receivables, loan to employees and security deposits.

Financial assets at fair value through profit or loss

Financial assets in this category are those that are held for trading and have been either designated by management upon initial recognition or are mandatorily required to be measured at fair value under Ind AS 109 i.e. they do not meet the criteria for classification as measured at amortised cost or FVOCI. Management only designates an instrument at FVTPL upon initial recognition, if the designation eliminates, or significantly reduces, the inconsistent treatment that would otherwise arise from measuring the assets or liabilities or recognising gains or losses on them on a different basis. Such designation is determined on an instrument-by-instrument basis. For the Group, this category includes derivative instruments and listed equity investments which the Group had not irrevocably elected to classify at fair value through OCI. The Group has not designated any financial assets at FVTPL.
Financial assets at fair value through profit or loss are carried in the balance sheet at fair value with net changes in fair value recognised in the statement of profit and loss.
Interest earned on instruments designated at FVTPL is accrued in interest income, using the EIR, taking into account any discount/ premium and qualifying transaction costs being an integral part of instrument. Interest earned on assets mandatorily required to be measured at FVTPL is recorded using the contractual interest rate. Dividend income on listed equity investments are recognised in the statement of profit and loss as other income when the right of payment has been established.

Derecognition

A financial asset (or ,where applicable, a part of a financial asset or part of a Group of simular financial assets) is primarily derecognised (i.e. removed from the Group's statement of financial position) when:

- The rights to receive cash flows from the asset have expired, or
- the Group has transferred its rights to receive cash flows from the asset or has assumed an obligation to pay the received cash flows in full without material delay to a third party under a "pass through" arrangement and either;

  (a) the Group has transferred substantially all the risks and rewards of the asset, or

  (b) the Group has neither transferred nor retained substantially all the risks and rewards of the asset, but has transferred control of the asset.

When the Group has transferred its rights to receive cash flows from an asset or has entered into a pass-through arrangement, it evaluates if and to what extent it has retained the risks and rewards of ownership. When it has neither transferred nor retained substantially all of the risks and rewards of the asset, nor transferred control of the asset, the Group continues to recognise the transferred asset to the extent of the Group's continuing involvement. In that case, the Group also recognises an associated liability. The transferred asset and the associated liability are measured on a basis that reflects the rights and obligations that the Group has retained.

Continuing involvement that takes the form of a guarantee over the transferred asset is measured at the lower of the original carrying amount of the asset and the maximum amount of consideration that the Group could be required to repay.

Impairment of financial assets

Further disclosures relating to impairment of financial assets are also provided in the following notes:

a) Disclosures for significant assumptions
b) Debt instruments at fair value through OCI
c) Trade receivables and contract assets

The Group recognises an allowance for expected credit losses (ECLs) for all debt instruments not held at fair value through profit or loss. ECLs are based on the difference between the contractual cash flows due in accordance with the contract and all the cash flows that the Group expects to receive, discounted at an approximation of the original effective interest rate. The expected cash flows will include cash flows from the sale of collateral held or other credit enhancements that are integral to the contractual terms.

ECLs are recognised in two stages. For credit exposures for which there has not been a significant increase in credit risk since initial recognition, ECLs are provided for credit losses that result from default events that are possible within the next 12-months (a 12-month ECL). For those credit exposures for which there has been a significant increase in credit risk since initial recognition, a loss allowance is required for credit losses expected over the remaining life of the exposure, irrespective of the timing of the default (a lifetime ECL).

For trade receivables and contract assets, the Group applies a simplified approach in calculating ECLs. Therefore, the Group does not track changes in credit risk, but instead recognises a loss allowance based on lifetime ECLs at each reporting date. The Group has established a provision matrix that is based on its historical credit loss experience, adjusted for forward-looking factors specific to the debtors and the economic environment.

For debt instruments at fair value through OCI, the Group applies the low credit risk simplification. At every reporting date, the Group evaluates whether the debt instrument is considered to have low credit risk using all reasonable and supportable information that is available without undue cost or effort. In making that evaluation, the Group reassesses the internal credit rating of the debt instrument. In addition, the Group considers that there has been a significant increase in credit risk when contractual payments are more than 30 days past due.

The Group considers a financial asset in default when contractual payments are 180 days past due. However, in certain cases, the Group may also consider a financial asset to be in default when internal or external information indicates that the Group is unlikely to receive the outstanding contractual amounts in full before taking into account any credit enhancements held by the Group. A financial asset is written off when there is no reasonable expectation of recovering the contractual cash flows.

(ii) Financial liabilities:

Initial recognition, measurement and presentation

Financial liabilities are classified, at initial recognition, as financial liabilities at fair value through profit or loss, loans and Borrowings, payables, or as derivatives designated as hedging instruments in an effective hedge, as appropriate.

All financial liabilities are recognised initially at fair value and, in the case of loans and Borrowings and payables, net of directly attributable transaction costs.

The Group's financial liabilities include trade payables, loans and Borrowings including bank overdrafts, other financial liabilities, financial guarantee contracts and derivative financial instruments.

Subsequent measurement

For purposes of subsequent measurement, financial liabilities are classified in two categories:

(i) Financial liabilities at fair value through profit or loss

(ii) Financial liabilities at amortised cost

Financial liabilities at fair value through profit or loss

Financial liabilities at fair value through profit or loss include financial liabilities held for trading and financial liabilities designated upon initial recognition as at fair value through profit or loss.
Financial liabilities are classified as held for trading if they are incurred for the purpose of repurchasing in the near term. This category also includes derivative financial instruments entered into by the Group that are not designated as hedging instruments in hedge relationships as defined by Ind AS 109. Separated embedded derivatives are also classified as held for trading unless they are designated as effective hedging instruments.

Gains or losses on liabilities held for trading are recognised in the profit or loss.

Financial liabilities are designated upon initial recognition as at fair value through profit or loss only if the criteria in Ind AS 109 are satisfied. For liabilities designated as FVTPL, fair value gains/ losses attributable to changes in own credit risk are recognized in OCI. These gains/ losses are not subsequently transferred to P&L. However, the Group may transfer the cumulative gain or loss within equity. All other changes in fair value of such liability are recognised in the statement of profit and loss. The Group has not designated any financial liability as at fair value through profit or loss.

Financial liabilities at amortised cost

This is the category most relevant to the Group. After initial recognition, interest-bearing loans and Borrowings are subsequently measured at amortised cost using the EIR method. Gains and losses are recognised in profit or loss when the liabilities are derecognised as well as through the EIR amortisation process.

Amortised cost is calculated by taking into account any discount or premium on acquisition and fees or costs that are an integral part of the EIR. The EIR amortisation is included as finance costs in the statement of profit and loss.

This category generally applies to Borrowings.

Derecognition

A financial liability is derecognised when the obligation under the liability is discharged or cancelled or expires. When an existing financial liability is replaced by another from the same lender on substantially different terms, or the terms of an existing liability are substantially modified, such an exchange or modification is treated as the derecognition of the original liability and the recognition of a new liability. The difference in the respective carrying amounts is recognised in the statement of profit and loss.

Reclassification of financial assets

The Group determines classification of financial assets and liabilities on initial recognition. After initial recognition, no reclassification is made for financial assets which are equity instruments and financial liabilities. For financial assets which are debt instruments, a reclassification is made only if there is a change in the business model for managing those assets. Changes to the business model are expected to be infrequent. The Group's senior management determines change in the business model as a result of external or internal changes which are significant to the Group's operations. Such changes are evident to external parties. A change in the business model occurs when the Group either begins or ceases to perform an activity that is significant to its operations. If the Group reclassifies financial assets, it applies the reclassification prospectively from the reclassification date which is the first day of the immediately next reporting period following the change in business model. The Group does not restate any previously recognised gains, losses (including impairment gains or losses) or interest.

The following table shows various reclassification and how they are accounted for:

Original Classification	Revised classification	Accounting treatment
Amortised cost	FVTPL	Fair value is measured at reclassification date. Difference between previous amortised cost and fair value is recognised in profit or loss.
FVTPL	Amortised Cost	Fair value at reclassification date becomes its new gross carrying amount. EIR is calculated based on the new gross carrying amount.
Amortised cost	FVTOCI	Fair value is measured at reclassification date. Difference between previous amortised cost and fair value is recognised in OCI. No change in EIR due to reclassification.
FVTOCI	Amortised Cost	Fair value at reclassification date becomes its new amortised cost carrying amount. However, cumulative gain or loss in OCI is adjusted against fair value. Consequently, the asset is measured as if it had always been measured at amortised cost.
FVTPL	FVTOCI	Fair value at reclassification date becomes its new carrying amount. No other adjustment is required.
FVTOCI	FVTPL	Assets continue to be measured at fair value. Cumulative gain or loss previously recognised in OCI is reclassified from equity to profit or loss the reclassification date.

Offsetting of financial instruments
Financial assets and financial liabilities are offset and the net amount is reported in the Consol balance sheet if there is a currently enforceable legal right to offset the recognised amounts and there is an intention to settle on a net basis, to realise the assets and settle the liabilities simultaneously.

2.11 Derivative financial instruments and hedge accounting

Initial recognition and subsequent measurement
The Group uses derivative financial instruments, such as forward currency contracts, to hedge its foreign currency risks. Such derivative financial instruments are initially recognised at fair value on the date on which a derivative contract is entered into and are subsequently re-measured at fair value. Derivatives are carried as financial assets when the fair value is positive and as financial liabilities when the fair value is negative.

2.12 Inventories

Inventories are valued at the lower of cost and net realisable value.

a) Basis of valuation:

Inventories are valued at lower of cost and net realizable value after providing cost of obsolescence, if any. However, materials and other items held for use in the production of inventories are not written down below cost unless the finished products in which they will be incorporated are expected to be sold at or above cost. The comparison of cost and net realizable value is made on an item-by-item basis.

b) Method of Valuation: Costs incurred in bringing each product to its present location and condition are accounted for as follows:

i) **Raw materials** :Cost of raw materials has been determined by using first in, first out (FIFO) basis method and comprises all costs of purchase, duties, taxes (other than those subsequently recoverable from tax authorities) and all other costs incurred in bringing the inventories to their present location and condition.

ii) **Finished goods and work in progress** : Cost of finished goods and work-in-progress includes direct labour and an appropriate share of fixed and variable production overheads. Fixed production overheads are allocated on the basis of normal capacity of production facilities. Cost is determined on FIFO basis.

iii) **Traded Goods :** Cost of traded goods has been determined by using FIFO basis method and comprises all costs of purchase, duties, taxes (other than those subsequently recoverable from tax authorities) and all other costs incurred in bringing the inventories to their present location and condition.

iii) **Stores, Spares and Consumables**: Cost of Stores, Spares and Consumables has been determined by using first in, first out (FIFO) basis method and comprises all costs of purchase, duties, taxes (other than those subsequently recoverable from tax authorities) and all other costs incurred in bringing the inventories to their present location and condition.

Net realizable value is the estimated selling price in the ordinary course of business, less estimated costs of completion and estimated costs necessary to make the sale.

2.13 Taxes

The income tax expense or credit for the period is the tax payable on the current period's taxable income based on the applicable income tax rate adjusted by changes in deferred tax assets and liabilities attributable to temporary differences and to unused tax losses. Income Tax expense for the year comprises of current tax and deferred tax.

a) Current income tax

Current income tax, assets and liabilities are measured at the amount expected to be paid to or recovered from the taxation authorities in accordance with the Income Tax Act, 1961 and the Income Computation and Disclosure Standards (ICDS) enacted in India by using tax rates and the tax laws that are enacted at the reporting date.

The current income tax charge is calculated on the basis of the tax laws enacted or substantively enacted at the end of the reporting period in the countries where the Group operate and generate taxable income. Management periodically evaluates positions taken in tax returns with respect to situations in which applicable tax regulation is subject to interpretation and considers whether it is probable that a taxation authority will accept an uncertain tax treatment. The Group measures its tax balances either based on the most likely amount or the expected value, depending on which method provides a better prediction of the resolution of the uncertainty.

Current income tax relating to item recognized outside the statement of profit and loss is recognized outside profit or loss (either in other comprehensive income or equity). Current tax items are recognized in correlation to the underlying transactions either in OCI or directly in equity.

S.R. BATLIBOI & CO. LLP
NEW DELHI

b) **Deferred Tax**

Deferred tax is provided using the Balance sheet approach on temporary differences between the tax bases of assets and liabilities and their carrying amounts for financial reporting purposes at the reporting date. However, deferred tax liabilities are not recognised if they arise from the initial recognition of goodwill. Deferred income tax is also not accounted for if it arises from initial recognition of an asset or liability in a transaction that is not a business combination and, at the time of the transaction, affects neither the accounting profit nor taxable profit or loss. Deferred tax liability is not recognised in respect of taxable temporary differences associated with investments in subsidiaries when the timing of the reversal of the temporary differences can be controlled and it is probable that the temporary differences will not reverse in the foreseeable future.

Deferred tax assets are recognised for all deductible temporary differences, the carry forward of unused tax credits and any unused tax losses. Deferred tax assets are recognised to the extent that it is probable that taxable profit will be available against which the deductible temporary differences, and the carry forward of unused tax credits and unused tax losses can be utilised, except:

i) When the deferred tax asset relating to the deductible temporary difference arises from the initial recognition of an asset or liability in a transaction that is not a business combination and, at the time of the transaction, affects neither the accounting profit nor taxable profit or loss & does not give rise to equal taxable and deductible temporary differences.

ii) In respect of deductible temporary differences associated with investments in subsidiaries and interests in joint ventures, deferred tax assets are recognised only to the extent that it is probable that the temporary differences will reverse in the foreseeable future and taxable profit will be available against which the temporary differences can be utilised.

The carrying amount of deferred tax assets is reviewed at each reporting date and reduced to the extent that it is no longer probable that sufficient taxable profit will be available to allow all or part of the deferred tax asset to be utilized. Unrecognized deferred tax assets are re-assessed at each reporting date and are recognized to the extent that it has become probable that future taxable profits will allow the deferred tax asset to be recovered.

In assessing the recoverability of deferred tax assets, the Group relies on the same forecast assumptions used elsewhere in the financial statements and in other management reports, which, among other things, reflect the potential impact of climate-related development on the business, such as increased cost of production as a result of measures to reduce carbon emission.

Deferred tax assets and liabilities are measured at the tax rates that are expected to apply in the year when the asset is realized or the liability is settled, based on tax rates (and tax laws) that have been enacted or substantively enacted at the reporting date.

Deferred tax relating to items recognized outside the statement of profit and loss is recognized outside the statement of profit and loss (either in other comprehensive income or in equity). Deferred tax items are recognized in correlation to the underlying transaction either in OCI or direct in equity.

Tax benefits acquired as part of a business combination, but not satisfying the criteria for separate recognition at that date, are recognised subsequently if new information about facts and circumstances change. Acquired deferred tax benefits recognised within the measurement period reduce goodwill related to that acquisition if they result from new information obtained about facts and circumstances existing at the acquisition date. If the carrying amount of goodwill is zero, any remaining deferred tax benefits are recognised in OCI/ capital reserve depending on the principle explained for bargain purchase gains. All other acquired tax benefits realised are recognised in profit or loss.

The Group offsets deferred tax assets and deferred tax liabilities if and only if it has a legally enforceable right to set off current tax assets and current tax liabilities and the deferred tax assets and deferred tax liabilities relate to income taxes levied by the same taxation authority on either the same taxable entity which intends either to settle current tax liabilities and assets on a net basis, or to realise the assets and settle the liabilities simultaneously, in each future period in which significant amounts of deferred tax liabilities or assets are expected to be settled or recovered.

2.14 Revenue from contract with customers

The Group manufactures and traded a range of agrochemical products. Revenue from contracts with customers involving sale of these products is recognized at a point in time when control of the product has been transferred, and there are no unfulfilled obligation that could affect the customer's acceptance of the products which usually happen on delivery of goods. Delivery occurs when the products are shipped to specific location and control has been transferred to the customers. The Group has objective evidence that all criterion for acceptance has been satisfied. The Group has generally concluded that it is the principal in its revenue arrangements. A receivable is recognised when the control of the product is transferred as the consideration is unconditional and payment becomes due upon passage of time as per the terms of contract with customers. The Group collects GST on behalf of the government and, therefore, it is not an economic benefit flowing to the Group, hence it is excluded from revenue. Revenue from the sale of goods is measured at the transaction price which is required as per Ind AS 115, net of returns and allowances, trade discounts, volume rebates.

(a) Sale of goods

Revenue from sale of goods is recognised at the point in time when control of the goods is transferred to the customer, generally on delivery of the goods and there are no unfulfilled obligations. Revenue towards satisfaction of a performance obligation is measured at the amount of transaction price (net of variable consideration) allocated to that performance obligation.

The Group considers, whether there are other promises in the contract in which their are separate performance obligations, to which a portion of the transaction price needs to be allocated. In determining the transaction price for the sale of goods, the Group considers the effects of variable consideration, the existence of significant financing components, noncash consideration, and consideration payable to the customer (if any).

(i) Variable consideration

If the consideration in a contract includes a variable amount, the Group estimates the amount of consideration to which it will be entitled in exchange for transferring the goods to the customer. The variable consideration is estimated at contract inception and constrained until it is highly probable that a significant revenue reversal in the amount of cumulative revenue recognised will not occur when the associated uncertainty with the variable consideration is subsequently resolved. The rights of return and volume rebates give rise to variable consideration.

S.R. BATLIBOI & CO. LLP
NEW DELHI

(ii) Schemes

The Group operates several sales incentive programmes wherein the customers are eligible for several benefits on achievement of underlying conditions as prescribed in the scheme program. Revenue from contracts with customers is presented deducting cost of all such schemes.

(iii) Significant Financing Components

In respect of short-term advances from its customers, using the practical expedient in Ind AS 115, the Group does not adjust the promised amount of consideration for the effects of a significant financing component if it expects, at contract inception, that the period between the transfer of the promised good or service to the customer and when the customer pays for that good or service will be within normal operating cycle.
In respect of long term contracts, the Group has used the incremental Borrowings rate to discount the consideration as this is the rate which commensurate with rate that would be reflected in separate financing arrangement between the Group and its customer.

(b) Contract balances

A contract asset is the right to consideration in exchange for goods or services transferred to the customer. If the Group performs by transferring goods or services to a customer before the customer pays consideration or before payment is due, a contract asset is recognised for the earned consideration that is conditional. A receivables represents the Group's right to an amount of consideration that is unconditional.
Contract assets are subject to impairment assessment. Refer to accounting policies on impairment of financial assets in section (Financial instruments – initial recognition and subsequent measurement).

A contract liability is the obligation to transfer goods or services to a customer for which the Group has received consideration (or an amount of consideration is due) from the customer. If a customer pays consideration before the Group transfers goods or services to the customer, a contract liability is recognised when the payment is made or the payment is due (whichever is earlier). Contract liabilities are recognised as revenue when the Group performs under the contract.

A trade receivable is recognised if an amount of consideration that is unconditional (i.e., only the passage of time is required before payment of the consideration is due). Refer to accounting policies of financial assets in section (Financial instruments – initial recognition and subsequent measurement).

2.15 Assets and liabilities arising from rights of return

(i) Right of return assets

A right-of-return asset is recognised for the right to recover the goods expected to be returned by customers. The asset is measured at the former carrying amount of the inventory, less any expected costs to recover the goods and any potential decreases in value of the returned goods. The Group updates the measurement of the asset recorded for any revisions to its expected level of returns, as well as any additional decreases in the value of the returned products.

(ii) Refund liabilities

A refund liability is recognised for the obligation to refund some or all of the consideration received (or receivable) from the customer. The Group's refund liabilities arise under specific circumstances from Group's customary business practice allowing customers' to return the products sold. The Group updates its estimates of refund liabilities (and the corresponding change in the transaction price) at the end of each reporting period.

2.16 Other Income

(a) Interest Income

For all debt instruments measured either at amortised cost or at fair value through other comprehensive income, interest income is recorded using the effective interest rate (EIR). EIR is the rate that exactly discounts the estimated future cash payments or receipts over the expected life of the financial instrument or a shorter period, where appropriate, to the gross carrying amount of the financial asset or to the amortised cost of a financial liability. When calculating the effective interest rate, the Group estimates the expected cash flows by considering all the contractual terms of the financial instrument (for example, prepayment, extension, call and similar options) but does not consider the expected credit losses. Interest income is recognised on a time proportion basis taking into account the amount outstanding and applicable interest rate. Interest income is included in other income in the statement of profit and loss.

2.17 Other Operating Revenues

Export benefit

Revenue from export benefits arising from duty drawback scheme and scheme for remission of duties and taxes on exported products are recognised on export of goods in accordance with their respective underlying scheme at fair value of consideration received or receivable. Accordingly, export incentive income is included in the statement of profit and loss.

2.18 Retirement and other employee benefits

(i) Short-term obligations

Liabilities for wages and salaries, including non monetary benefits that are expected to be settled wholly within twelve months after the end of the period in which the employees render the related service are recognized in respect of employee service upto the end of the reporting period and are measured at the amount expected to be paid when the liabilities are settled. The liabilities are presented as current employee benefit obligations in the balance sheet.

(ii) Other long-term employee benefit obligations

a) **Gratuity**

The Employee's Gratuity Fund Scheme, which is defined benefit plan, is managed by Trust with its investments maintained with Life Insurance Corporation. The liabilities with respect to Gratuity Plan are determined by actuarial valuation on projected unit credit method on the balance sheet date, based upon which the Group contributes to the Gratuity Scheme. The difference, if any, between the actuarial valuation of the gratuity of employees at the year end and the balance of funds is provided for as assets/ (liability) in the books. Net interest is calculated by applying the discount rate to the net defined benefit liability or asset. The Group recognizes the following changes in the net defined benefit obligation under Employee benefit expense in statement of profit or loss:

a) Service costs comprising current service costs, past-service costs, gains and losses on curtailments and non-routine settlements

b) Net interest expense or income

Remeasurements, comprising of actuarial gains and losses, the effect of the asset ceiling, excluding amounts included in net interest on the net defined benefit liability and the return on plan assets (excluding amounts included in net interest on the net defined benefit liability), are recognized immediately in the Balance Sheet with a corresponding debit or credit to retained earnings through other comprehensive income in the period in which they occur. Remeasurements are not reclassified to profit or loss in subsequent periods.

b) **Provident fund**

Retirement benefit in the form of provident fund is a defined contribution scheme. the Group has no obligation, other than the contribution payable to the provident fund. The Group recognizes contribution payable through provident fund scheme as an expense, when an employee renders the related services. If the contribution payable to scheme for service received before the balance sheet date exceeds the contribution already paid, the deficit payable to the scheme is recognized as liability after deducting the contribution already paid. If the contribution already paid exceeds the contribution due for services received before the balance sheet date, then excesses recognized as an asset to the extent that the prepayment will lead to, for example, a reduction in future payment or a cash refund.

c) **Compensated absences**

Accumulated leave is treated as short-term employee benefit. The Group measures the expected cost of such absences as the additional amount that it expects to pay as a result of the unused entitlement that has accumulated at the reporting date. The Group recognizes expected cost of short-term employee benefit as an expense, when an employee renders the related service. Such compensated absences are provided for based on the actuarial valuation using the projected unit credit method at the reporting date. Actuarial gains/losses are immediately taken to the statement of profit and loss and are not deferred. The Group presents the entire leave as a current financial liability in the balance sheet, since it does not have an unconditional right to defer its settlement for twelve months after the reporting date.

d) **Other employee benefits**

Employee Stock Option Scheme: The fair value of options granted under this option plan is recognised as an employee benefit expense with corresponding increase in share based payment (SBP) reserve in equity in accordance with recognition and measurement principles as prescribed in Ind AS 102 Share Based Payments when grant is made. The total expense is recognised over the vesting period, which is the period over which all of the specified vesting conditions are to be satisfied. At end of the reporting period, the entity revises its estimates of the number of options that are expected to vest based on the non-market vesting and service conditions. It recognizes the impact of the revision to original estimates, if any, in profit or loss, with corresponding adjustment to equity. The expense or credit recognized in the Statement of Profit and Loss for a period represents the movement in cumulative expense recognized as at the beginning and end of that period and is recognized in employee benefits expense.

2.19 Leases

The Group assesses at contract inception whether a contract is, or contains, a lease. That is, if the contract conveys the right to control the use of an identified asset for a period of time in exchange for consideration.

Group as a lessee

The Group's lease asset classes primarily comprise of lease for office premises. The Group applies a single recognition and measurement approach for all leases, except for short-term leases and leases of low-value assets. The Group recognises lease liabilities to make lease payments and right-of-use assets representing the right to use the underlying assets.

i) **Right-of-use assets**

The Group recognises right-of-use assets at the commencement date of the lease (i.e. the date the underlying asset is available for use). Right-of-use assets are measured at cost, less any accumulated depreciation and impairment losses, and adjusted for any remeasurement of lease liabilities. The cost of right-of-use assets includes the amount of lease liabilities recognised, initial direct costs incurred, and lease payments made at or before the commencement date less any lease incentives received. Right-of-use assets are depreciated on a straight-line basis over the shorter of the lease term and the estimated useful lives of the leasehold office premises and leasehold building taken for Gujarat plant.

If ownership of the leased asset transfers to the Group at the end of the lease term or the cost reflects the exercise of a purchase option, depreciation is calculated using the estimated useful life of the asset. The right-of-use assets are also subject to impairment. Refer to the accounting policies in section 'Impairment of non-financial assets'.

ii) **Lease Liabilities**

At the commencement date of the lease, the Group recognises lease liabilities measured at the present value of lease payments to be made over the lease term. The lease payments include fixed payments (including in substance fixed payments) less any lease incentives receivable, variable lease payments that depend on an index or a rate, and amounts expected to be paid under residual value guarantees. The lease payments also include the exercise price of a purchase option reasonably certain to be exercised by the Group and payments of penalties for terminating the lease, if the lease term reflects the Group exercising the option to terminate. Variable lease payments that do not depend on an index or a rate are recognised as expenses (unless they are incurred to produce inventories) in the period in which the event or condition that triggers the payment occurs.

In calculating the present value of lease payments, the Group uses its incremental borrowings rate at the lease commencement date because the interest rate implicit in the lease is not readily determinable. After the commencement date, the amount of lease liabilities is increased to reflect the accretion of interest and reduced for the lease payments made. In addition, the carrying amount of lease liabilities is remeasured if there is a modification, a change in the lease term, a change in the lease payments (e.g., changes to future payments resulting from a change in an index or rate used to determine such lease payments) or a change in the assessment of an option to purchase the underlying asset.

Lease payments are allocated between principal and finance cost. The finance cost is charged to profit or loss over the lease period so as to produce a constant periodic rate of interest on the remaining balance of the liability for each period.
The Companies' lease liabilities are included in other current and non-current financial liabilities.

(iii) Short-term leases and leases of low-value assets
The Group applies the short-term lease recognition exemption to its short-term leases (i.e., those leases that have a lease term of 12 months or less from the commencement date and do not contain a purchase option). It also applies the lease of low-value assets recognition exemption to leases that are considered to be low value. Lease payments on short-term leases and leases of low-value assets are recognised as expense on a straight-line basis over the lease term.

2.20 Earnings Per Share

Basic earnings per share are calculated by dividing the net profit or loss for the period attributable to equity shareholders by the weighted average number of equity shares outstanding during the period. The weighted average number of equity shares outstanding during the period is adjusted for events such as bonus issue, bonus element in a rights issue, share split, and reverse share split (consolidation of shares) if any that have changed the number of equity shares outstanding, without a corresponding change in resources.

Ordinary shares that will be issued upon the conversion of a mandatorily convertible instrument are included in the calculation of basic earnings per share from the date the contract is entered into.

For the purpose of calculating diluted earnings per share, the net profit or loss for the period attributable to equity shareholders and the weighted average number of shares outstanding during the period are adjusted for the effect of all potentially dilutive equity shares.

S.R. BATLIBOI & CO. LLP
NEW DELHI

2.21 Borrowings Costs

Borrowings cost includes interest and other costs incurred in connection with the Borrowings of funds and charged to Statement of Profit & Loss on the basis of effective interest rate (EIR) method. Borrowings cost also includes exchange differences to the extent regarded as an adjustment to the Borrowings cost.

Borrowings costs directly attributable to the acquisition, construction or production of an asset that necessarily takes a substantial period of time to get ready for its intended use or sale are capitalized as part of the cost of the respective asset. All other Borrowings costs are recognized as expense in the period in which they occur.

2.22 Cash and cash equivalents

Cash and cash equivalent in the balance sheet comprise cash at banks and on hand and short-term deposits with an original maturity of three months or less, that are readily convertible to a known amount of cash and subject to an insignificant risk of changes in value.

For the purpose of the statement of cash flows, cash and cash equivalents consist of cash and short-term deposits, as defined above, net of outstanding bank overdrafts as they are considered an integral part of the Group's cash management.

2.23 Foreign currencies

(i) ***Functional and presentation currency***

Items included in the financial statements are measured using the currency of the primary economic environment in which the entity operates ('the functional currency'). The Group's financial statements are presented in Indian rupee (INR) which is also the Group's functional and presentation currency.

(ii) ***Transactions and balances***

Foreign currency transactions are translated into the functional currency using the exchange rate prevailing at the date of the transaction. Foreign exchange gains and losses resulting from the settlement of such transaction and from the translation of monetary assets and liabilities denominated in foreign currencies at year end exchange rate are generally recognised in the statement of profit and loss.

Non-monetary items that are measured in terms of historical cost in a foreign currency are translated using the exchange rates at the dates of the initial transactions. Non-monetary items measured at fair value in a foreign currency are translated using the exchange rates at the date when the fair value is determined. The gain or loss arising on translation of non-monetary items measured at fair value is treated in line with the recognition of the gain or loss on the change in fair value of the item (i.e., translation differences on items whose fair value gain or loss is recognised in OCI or profit or loss are also recognised in OCI or profit or loss, respectively)

(iii) ***Exchange differences***

Exchange differences arising on settlement or translation of monetary items are recognized as income or expense in the period in which they arise with the exception of exchange differences on gain or loss arising on translation of non-monetary items measured at fair value which is treated in line with the recognition of the gain or loss on the change in fair value of the item (i.e., translation differences on items whose fair value gain or loss is recognized in OCI or profit or loss are also recognized in OCI or profit or loss, respectively). Foreign exchange differences arising on foreign currency Borrowings are presented in the statement of profit and loss, within finance costs. All other foreign exchange gains and losses are presented in the statement of profit and loss on a net basis.

2.24 Provisions and Contingent Liabilities

Provisions

A provision is recognized when the Group has a present obligation (legal or constructive) as a result of past event, it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation and a reliable estimate can be made of the amount of the obligation. These estimates are reviewed at each reporting date and adjusted to reflect the current best estimates. If the effect of the time value of money is material, provisions are discounted using a current pre-tax rate that reflects, when appropriate, the risks specific to the liability. When discounting is used, the increase in the provision due to the passage of time is recognized as a finance cost.

Contingent liabilities

A contingent liability is a possible obligation that arises from past events whose existence will be confirmed by the occurrence or non-occurrence of one or more uncertain future events beyond the control of the Group or a present obligation that is not recognized because it is not probable that an outflow of resources will be required to settle the obligation. A contingent liability also arises in extremely rare cases, where there is a liability that cannot be recognized because it cannot be measured reliably. the Group does not recognize a contingent liability but discloses its existence in the financial statements unless the probability of outflow of resources is remote.

Provisions, contingent liabilities, contingent assets and commitments are reviewed at each balance sheet date.

2.25 Dividend Distributions

The Group recognizes a liability to make the payment of dividend to owners of equity, when the distribution is authorised and the distribution is no longer at the discretion of the Group. As per the corporate laws in India, a distribution is authorised when it is approved by the shareholders. A corresponding amount is recognised directly in equity.

2.26 Fair value measurement

The Group measures financial instruments such as derivatives at fair value at each balance sheet date.

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an ordinary transaction between market participants at the measurement date. The fair value measurement is based on the presumption that the transaction to sell the asset or transfer the liability takes place either:

(i) In the principal market for asset or liability, or

(ii) In the absence of a principal market, in the most advantageous market for the asset or liability.

The principal or the most advantageous market must be accessible by the Group.

The fair value of an asset or liability is measured using the assumptions that market participants would use when pricing the asset or liability, assuming that market participants act in their economic best interest.

A fair value measurement of a non- financial asset takes into account a market participant's ability to generate economic benefits by using the asset in its highest and best use or by selling it to another market participant that would use the asset in its highest and best use.

The Group uses valuation techniques that are appropriate in the circumstances and for which sufficient data are available to measure fair value, maximising the use of relevant observable inputs and minimizing the use of unobservable inputs.

All assets and liabilities for which fair value is measured or disclosed in the financial statements are categorized within the fair value hierarchy, described as follows, based on the lowest level input that is significant to the fair value measurement as a whole:

S.R. BATLIBOI & CO. NEW DELHI

Level 1- Quoted(unadjusted) market prices in active markets for identical assets or liabilities

Level 2- Valuation techniques for which the lowest level input that is significant to the fair value measurement is directly or indirectly observable.

Level 3- Valuation techniques for which the lowest level input that is significant to the fair value measurement is unobservable.

For assets and liabilities that are recognized in the financial statements on a recurring basis, the Group determines whether transfers have occurred between levels in the hierarchy by re-assessing categorization (based on the lowest level input that is significant to fair value measurement as a whole) at the end of each reporting period.

For the purpose of fair value disclosures, the Group has determined classes of assets and liabilities on the basis of the nature, characteristics and risks of the asset or liability and the level of the fair value hierarchy as explained above.

2.27 Government grants

Government grants are recognised where there is reasonable assurance that the grant will be received, and all attached conditions will be complied with. When the grant relates to an expense item, it is recognised as income on a systematic basis over the periods that the related costs, for which it is intended to compensate, are expensed. When the grant relates to an asset, it is recognised as income in equal amounts over the expected useful life of the related asset.

When the Group receives grants of non-monetary assets, the asset and the grant are recorded at fair value amounts and released to profit or loss over the expected useful life in a pattern of consumption of the benefit of the underlying asset i.e. by equal annual instalments.

2.28 Supplier finance arrangements

The Group has established supplier finance arrangements. The Group evaluates whether financial liabilities covered such arrangements continue to be classified within trade payables, or they need to be classified as part of other financial liabilities. Such evaluation requires exercise of judgment basis specific terms of the arrangement.
The Group classifies financial liabilities covered under supplier finance arrangement within trade payables in the balance sheet only if (i) the obligation represents a liability to pay for goods and services, (ii) is invoiced and formally agreed with the supplier, (iii) is part of the working capital used in its normal operating cycle, (iv) the group is not legally released from its original obligation to the supplier, and has not assumed a new obligation toward the bank, and another party (iv) there is no substantial modification to the terms of the liability.
If one or more of the above criteria are met, the Group derecognises its original liability toward the supplier and recognise a new liability toward the bank which is classified as "other financial liability", depending on factors such as whether the Group (i) has obligation toward bank, (ii) is getting extended credit period such that obligation is no longer part of its working capital cycle, (iii)is paying interest directly or indirectly, (iv) has provided guarantee or security, and/or (v) is recognized as borrower in the bank books.

2.29 Significant accounting judgments, estimates and assumptions

The preparation of these consol financial statements requires the management to make judgments, use estimates and assumptions that affect the reported amounts of revenues, expenses, assets and liabilities, and the accounting disclosures, and the disclosure of contingent liabilities. Uncertainty about these judgements, assumptions and estimates could result in outcomes that require a material adjustment to the carrying amount of the asset or liability affected in future periods.

Other disclosures relating to the Group's exposure to risks and uncertainties includes:
- Capital management 26(7)
- Financial risk management objectives and policies Note 26(5.2)
- Sensitivity analyses disclosures.

Judgements

In the process of applying the Group's accounting policies, management has made the following judgements, which have the most significant effect on the amounts recognised in the Consolidated financial statements.

a) **Determining the lease term of contracts with renewal and termination options – Group as lessee**

The Group determines the lease term as the non-cancellable term of the lease, together with any periods covered by an option to extend the lease if it is reasonably certain to be exercised, or any periods covered by an option to terminate the lease, if it is reasonably certain not to be exercised.
The Group has several lease contracts that include extension and termination options. The Group applies judgement in evaluating whether it is reasonably certain whether or not to exercise the option to renew or terminate the lease. That is, it considers all relevant factors that create an economic incentive for it to exercise either the renewal or termination. After the commencement date, the Group reassesses the lease term if there is a significant event or change in circumstances that is within its control and affects its ability to exercise or not to exercise the option to renew or to terminate (e.g. construction of significant leasehold improvements or significant customisation to the right-of-use assets).

b) **Revenue from contract with customers**

Certain contracts of sale includes volume rebates that give rise to variable consideration. In estimating the variable consideration the Group has used a combination of most likely amount method and expected value method.

c) **Estimates and assumptions**

The key assumptions concerning the future and other key sources of estimation uncertainty at the reporting date, that have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities within the next financial year, are described below. The Group based its assumptions and estimates on parameters available when the Consol financial statements were prepared. Existing circumstances and assumptions about future developments, however, may change due to market changes or circumstances arising that are beyond the control of the Group. Such changes are reflected in the assumptions when they occur.

d) **Taxes**

Uncertainties exist with respect to the interpretation of tax regulations, changes in tax laws, and the amount and timing of future taxable income. Given the wide range of business relationships differences arising between the actual results and the assumptions made, or future changes to such assumptions, could necessitate future adjustments to tax income and expense already recorded. The Group establishes provisions, based on reasonable estimates. The amount of such provisions is based on various factors, such as experience of previous tax audits and differing interpretations of tax regulations by the taxable entity and the responsible tax authority.

e) **Defined benefit plans**

The cost of defined benefit plans (i.e. Gratuity benefit) is determined using actuarial valuations. An actuarial valuation involves making various assumptions which may differ from actual developments in the future. These include the determination of the discount rate, future salary increases, mortality rates and future pension increases. Due to the complexity of the valuation, the underlying assumptions and its long-term nature, a defined benefit obligation is highly sensitive to changes in these assumptions. All assumptions are reviewed at each reporting date. In determining the appropriate discount rate, management considers the interest rates of long term government bonds with extrapolated maturity corresponding to the expected duration of the defined benefit obligation. The mortality rate is based on publicly available mortality tables for India. Future salary increases and pension increases are based on expected future inflation rates for India. Further details about the assumptions used, including a sensitivity analysis.

S.R. BATLIBOI & CO. LLP
NEW DELHI

f) Fair value measurement of financial instrument

When the fair value of financial assets and financial liabilities recorded in the balance sheet cannot be measured based on quoted prices in active markets, their fair value is measured using valuation techniques including the Discounted Cash Flow (DCF) model. The inputs to these models are taken from observable markets where possible, but where this is not feasible, a degree of judgment is required in establishing fair values. Judgments include considerations of inputs such as liquidity risk, credit risk and volatility. Changes in assumptions about these factors could affect the reported fair value of financial instruments.

g) Impairment of financial assets

The impairment provisions of financial assets are based on assumptions about risk of default and expected loss rates. the Group uses judgment in making these assumptions and selecting the inputs to the impairment calculation, based on Group's past history ,existing market conditions as well as forward looking estimates at the end of each reporting period.

h) Impairment of non-financial assets

The Group assesses at each reporting date whether there is an indication that an asset may be impaired. If any indication exists, or when annual impairment testing for an asset is required, the Group estimates the asset's recoverable amount. An assets recoverable amount is the higher of an asset's CGU'S fair value less cost of disposal and its value in use. Where the carrying amount of an asset or CGU exceeds its recoverable amount, the asset is considered impaired and is written down to its recoverable amount.

In assessing value in use , the estimated future cash flows are estimated based on past rend and discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset. In determining fair value less costs of disposal, recent market transactions are taken into account. If no such transactions can be identified, an appropriate valuation model is used. These calculations are corroborated by valuation multiples, or other fair value indicators.

The Group assesses where climate risks could have a significant impact, such as the introduction of emission reduction legislation that may increase manufacturing costs. These risks in relation to climate-related matters are included as key assumptions where they materially impact the measure of recoverable amount. These assumptions have been included in the cash-flow forecasts in assessing value-in-use amounts.

i) Provision for expected credit losses (ECL) of trade receivables

The Group uses a provision matrix to calculate ECLs for trade receivables and contract assets. The provision rates are based on days past due for groupings of various customer segments that have similar loss patterns (i.e., by geography, product type, customer type and rating, and coverage by letters of credit and other forms of credit insurance). The provision matrix is initially based on the Group's historical observed default rates. The Group will calibrate the matrix to adjust the historical credit loss experience with forward-looking information. At every reporting date, the historical observed default rates are updated and changes in the forward-looking estimates are analysed.

The assessment of the correlation between historical observed default rates, forecast economic conditions and ECLs is a significant estimate. The amount of ECLs is sensitive to changes in circumstances and of forecast economic conditions. The Group's historical credit loss experience and forecast of economic conditions may also not be representative of customer's actual default in the future. The information about the ECLs on the Group's trade receivables and contract assets is disclosed in Notes.

j) Property, Plant and Equipment and Intangible Assets

Property, Plant and Equipment and Intangible Assets represent significant portion of the asset base of the Group. The charge in respect of periodic depreciation/amortisation is derived after determining an estimate of assets expected useful life and expected value at the end of its useful life. The useful life and residual value of Group's assets are determined by Management at the time asset is acquired and reviewed periodically including at the end of each year. The useful life is based on historical experience with similar assets, in anticipation of future events, which may have impact on their life such as change in technology.

k) Intangible asset under development

The Group capitalises intangible asset under development for a project in accordance with the accounting policy. Initial capitalisation of costs is based on management's judgement that technological and economic feasibility is confirmed, usually when a product development project has reached a defined milestone according to an established project management model.
In determining the amounts to be capitalised, management makes assumptions regarding the expected future cash generation of the project, discount rates to be applied and the expected period of benefits.

2.30 Segment reporting policies

The Group deals in only one business segment of manufacturing and trading of agrochemical products and the chief operating decision maker (CODM) reviews the operations of the Group as a whole, hence there is no reportable segments as per Ind AS 108 "Operating Segments".

2.31 New and amended standards that have an impact on the Group's financial statements, performance and/or disclosures:

These are certain amendments that apply for the first time for the year ending March 31, 2026, but do not have a material impact on the financial statements of the Group. The Group has not early adopted any standards or amendments that have been issued but are not yet effective

(i) Amendments to Ind AS 21 - Lack of exchangeability

The Ministry of Corporate Affairs (MCA) notified the Companies (Indian Accounting Standards) Amendment Rules, 2025, which amend Ind AS 21, The Effects of Changes in Foreign Exchange Rates to specify how an entity should assess whether a currency is exchangeable and how it should determine a spot exchange rate when exchangeability is lacking. The amendments also require disclosure of information that enables users of its financial statements to understand how the currency not being exchangeable into the other currency affects, or is expected to affect, the entity's financial performance, financial position and cash flows.
The amendments are effective for annual reporting periods beginning on or after April 01, 2025. When applying the amendments, an entity cannot restate comparative information.

S.R. BATLIBOI & CO. LLP
NEW DELHI

(ii) Amendments to Ind AS 1 - Classification of Liabilities as Current or Non-current and Non-current Liabilities with Covenants

In August 2025, the MCA notified amendments to paragraphs 69 to 76 of Ind AS 1 to specify the requirements for classifying liabilities as current or non-current. The amendments clarify:

- What is meant by a right to defer settlement
- That a right to defer must exist at the end of the reporting period
- That classification is unaffected by the likelihood that an entity will exercise its deferral right
- That only if an embedded derivative in a convertible liability is itself an equity instrument would the terms of a liability not impact its classification

In addition, a requirement has been introduced to require disclosure when a liability arising from a loan agreement is classified as non-current and the entity's right to defer settlement is contingent on compliance with future covenants within twelve months.

If there is a breach of a material covenant of a long term loan arrangement on or before the end of the reporting period, resulting in the liability becoming payable on demand as at the reporting date, and the lender agrees—after the reporting period but before the financial statements are approved for issue—not to demand repayment for at least 12 months as a consequence of the breach, this shall be treated as an adjusting event. Accordingly, the entity is not required to classify the liability as current.

The amendments are effective for annual reporting periods beginning on or after April 01, 2025 retrospectively in accordance with Ind AS 8.

(iii) Amendments to Ind AS 7 and Ind AS 107 - Supplier Finance Arrangements

In August 2025, the MCA notified amendments to Ind AS 7 Statement of Cash Flows and Ind AS 107 Financial Instruments: Disclosures to clarify the characteristics of supplier finance arrangements and require additional disclosure of such arrangements. The disclosure requirements in the amendments are intended to assist users of financial statements in understanding the effects of supplier finance arrangements on an entity's liabilities, cash flows and exposure to liquidity risk.

As a result of implementing the amendments, the Group has provided additional disclosures about its supplier finance arrangement. Please refer to Note 12(D)(a)

(iv) International Tax Reform—Pillar Two Model Rules – Amendments to Ind AS 12

In August 2025, the MCA notified amendments to Ind AS 12 Income Taxes in response to the OECD's BEPS Pillar Two rules and include:

•A mandatory temporary exception to the recognition and disclosure of deferred taxes arising from the jurisdictional implementation of the Pillar Two model rules; and

•Disclosure requirements for affected entities to help users of the financial statements better understand an entity's exposure to Pillar Two income taxes arising from that legislation, particularly before its effective date.

The mandatory temporary exception – the use of which is required to be disclosed – applies immediately. The remaining disclosure requirements apply for annual reporting periods beginning on or after April 01, 2025, but not for any interim periods ending on or before March 31, 2026.

The amendments had no impact on the Group's consolidated financial statements as the Group is not in scope of the Pillar Two model rules.

2.32 Standards issued but not yet effective

(i) Amendments to Ind AS 1 - Classification of Liabilities as Current or Non-current and Non-current Liabilities with Covenants

In accordance with Ind AS 1 currently applicable, breach of an immaterial covenant is ignored deciding in current vs.non-current classification of liabilities. Also, in case of breach of a material covenant of a non-current loan on or before the reporting date, the entity can obtain waiver from the lender after the reporting date and continue to classify the loan as non-current liability.

In accordance with changes to Ind AS 1 already notified by the MCA, the above relaxations to classify loan as non-current liability will not be available from FY 2026-27 onward and need to be applied retrospectively. Consequently:

- A breach of either material or immaterial covenant will trigger current classification of liability.
- To continue classifying loan as non-current liability, entities will need to obtain waiver from the breach on or before the reporting date.

This does not have a material impact on consolidated financial statements.

(ii) Amendments to Ind AS 109 and Ind AS 107 - Contracts Referencing Nature-dependent Electricity

In August 2026, the MCA issued Amendments to Ind AS 109 and Ind AS 107 Contracts Referencing Nature-dependent Electricity. The amendments apply only to contracts that reference nature-dependent electricity. The amendments:

- Clarify the application of the 'own-use' requirements for in-scope contracts
- Amend the designation requirements for a hedged item in a cash flow hedging relationship for in-scope contracts
- Add new disclosure requirements to enable investors to understand the effect of these contracts on a company's financial performance and cash flows

The amendments are effective for annual reporting periods beginning on or after 1 April 2026. The amendments concerning the own-use exception are to be applied retrospectively, while the hedge accounting amendments should be applied prospectively to new hedging relationships designated from the initial application date. Additionally, Ind AS 107 disclosure amendments must be implemented alongside Ind AS 109 amendments.

This does not have a material impact on consolidated financial statements.

(iii) Amendments to Ind AS 109 and Ind AS 107 - Amendments to the Classification and Measurement of Financial Instruments

In August 2026, the MCA issued Amendments to Ind AS 109 and Ind AS 107, Amendments to the Classification and Measurement of Financial Instruments. The Amendments include:

- A clarification that a financial liability is derecognised on the 'settlement date' and the introduction of an accounting policy choice (if specific conditions are met) to derecognise financial liabilities settled using an electronic payment system before the settlement date.
- Additional guidance on how the contractual cash flows for financial assets with environmental, social and corporate governance (ESG) and similar features should be assessed.
- Clarifications on what constitute 'non-recourse features' and what are the characteristics of contractually linked instruments.

Introduction of disclosures for financial instruments with contingent features and additional disclosure requirements for equity instruments classified at fair value through other comprehensive income (OCI).

The Amendments are effective for annual reporting periods beginning on or after 1 April 2026. This does not have a material impact on consolidated financial statements.

(iv) Annual Improvements to Ind AS (2024)

In August 2026, the MCA issued nine narrow scope amendments as part of its periodic maintenance of Ind AS. The amendments include clarifications, simplifications, corrections or changes to improve consistency in Ind AS 101 First-time Adoption of Indian Accounting Standards, Ind AS 107 Financial instruments: Disclosure and its accompanying Guidance on implementing Ind AS 107, Ind AS 109 Financial Instruments, Ind AS 110 Consolidated Financial Statements and Ind AS 7 Statements of Cash Flows.

The amendments are effective for annual reporting periods beginning on or after 1 April 2026. This does not have a material impact on consolidated financial statements.

Notes

(i) **Assets pledged/mortgaged as security:** Refer to note 12(A) for disclosure of assets given as security against borrowings.

(ii) Capital work in progress includes assets which are under construction at the factory.

(iii) **Contractual obligations :** Refer note 25 (B) for Disclosure of capital commitment for the acquisition of property, plant and equipment.

(iv) **Capitalised Borrowing cost:** No borrowings cost is capitalised on the item of property, plant and equipment and capital work in progress during the years ended March 31, 2026 and March 31, 2025.

(v) The Group had availed the exemption under Ind AS 101 where the carrying value for all of its property, plant and equipment under previous GAAP has been carried forward and its deemed cost as at the date of transition i.e. April 01, 2020.

(vi) The title deeds of immovable properties in the nature of freehold land along-with building thereon included in property, plant and equipment are not held in the name of the Group for the below mentioned cases:

Relevant line item in the Balance sheet	Description of item of property	Gross carrying value (Rs. in millions)	Title deeds held in the name of	Whether title deed holder is a promoter, director or relative / employee of promoter/ director	Property held since	Reason for not being held in the name of the Group
Property, plant and equipment	Freehold land and building	7.04	Mr. Keshav Anand	Yes	April 14, 2023	At present, registry option is not available at the location Village Mandhaur, Ambala so the properties are not registered at the Registrar's office. The transfer of ownership was executed through the signing of the Agreement to Sell and other related documents. Once the registration process is available through the State Government, Sale Deeds will be executed in favour of the Group at the Registrar's office.
Property, plant and equipment	Freehold land and building	7.34	Mr. Vikram Anand	Yes	April 14, 2023	

(vii) Ageing of Capital work in progress (CWIP) is as below:

As at March 31, 2026

Particulars	Amount in CWIP for a period of				Total
	Less than 1 year	1-2 years	2-3 years	More than 3 years	
Projects in progress	32.94	3.03	0.13	2.25	38.35
Projects temporarily suspended**	-	-	-	5.20	5.20
Total	32.94	3.03	0.13	7.45	43.55

As at March 31, 2025

Particulars	Amount in CWIP for a period of				Total
	Less than 1 year	1-2 years	2-3 years	More than 3 years	
Projects in progress	6.35	0.19	5.00	-	11.54
Projects temporarily suspended**	-	-	-	5.20	5.20
Total	6.35	0.19	5.00	5.20	16.74

S.R. BATLIBOI & CO. LLP
NEW DELHI

**The above project, classified under 'projects temporarily suspended', represents expenditure incurred towards construction activities on a designated area of Crimsun Organics Private Limited, one of the subsidiary company. These activities are currently on hold, pending the finalisation of an appropriate development plan to ensure compliance with applicable regulatory approval conditions.

Note: As on March 31, 2026 and March 31, 2025 there is no project classified as capital work-in-progress whose completion is overdue or has exceeded the cost based on original approved plan (except refer note above).

3(B) Assets classified as held for sale

S.R. BATLIBOI & CO. LLP
NEW DELHI

Notes:-

(i) Intangible assets under development comprise of costs incurred towards creating product dossiers, fees paid to registration consultants, application fees to the relevant statutory authorities, data compensation costs and data call-in costs which generally takes 3-4 years.

(ii)There are no restrictions over the title of the Group's intangible assets, nor are any intangible assets pledged as security for liabilities.

(iii) The Group had availed the exemption under Ind AS 101 where the carrying value for all of intangible assets and intangible assets under development has been carried forward as its deemed cost as at the date of transition i.e. April 01, 2020.

(iv) Impairment testing of goodwill

Goodwill represents the cost of acquired business as established at the date of acquisition of the business in excess of the acquirer's interest in the net fair value of the identifiable assets, liabilities and contingent liabilities less accumulated impairment losses, if any. Goodwill is tested for impairment annually or when events or circumstances indicate that the implied fair value of goodwill is less than its carrying amount. CGUs to which goodwill has been allocated are tested for impairment annually, or more frequently when there is indication for impairment. The recoverable amount is determined based on 'value in use' calculation model. The financial projections basis which the future cash flows have been estimated consider economic uncertainties, reassessment of the discount rates, revisiting the growth rates factored while arriving at terminal value and subjecting these variables to sensitivity analysis. If the recoverable amount of a CGU is less than its carrying amount, the impairment loss is allocated first to reduce the carrying amount of any goodwill allocated to the unit and then to the other assets of the unit pro-rata on the basis of the carrying amount of each asset in the unit. The goodwill of Rs. 26.40 millions as at March 31, 2026 (March 31, 2025: Rs. 31.67 millions) has been evaluated based on the cash flow forecasted of the related CGU and the recoverable amount of CGU exceeded their carrying amount except in one case where recoverable amount was below carrying amount and hence impairment of Rs. Nil (March 31, 2025: Rs. 5.27 millions) has recognised during the year ended March 31, 2026.

Goodwill consists of the following:

Particulars	As at March 31, 2026	As at March 31, 2025
Balance at the beginning of the year	26.40	33.05
Impairment allowance	-	(5.27)
Exchange Differences	-	(1.38)
Closing balance	**26.40**	**26.40**

The management has used following assumptions for impairment testing as stated below:

Particulars	March 31, 2026	March 31, 2025	Approach used in determining value
Terminal growth value	5.00%	5.00%	It has been determined basis risk free rate of return adjusted for equity risk premium.
Weighted average cost of capital	14.64%	15.00%	This is the weighted average growth rate used to extrapolate cash flows beyond the budget period. The rates are consistent with forecasts included in industry reports.

S.R. BATLIBOI & CO. LLP
NEW DELHI

(v) Ageing of Intangible Asset under Development (IAUD) is as below:

Particulars	Amount in IAUD for a period of				Total
	Less than 1 year	1-2 years	2-3 years	More than 3 years	
As at March 31, 2026					
Projects in progress	89.57	46.12	42.91	41.01	219.61
Projects temporarily suspended	-	-	-		-
Total	**89.57**	**46.12**	**42.91**	**41.01**	**219.61**
As at March 31, 2025					
Projects in progress	77.56	79.66	33.69	30.35	221.26
Projects temporarily suspended	-	-	-		-
Total	**77.56**	**79.66**	**33.69**	**30.35**	**221.26**

Note: As on March 31, 2026 and March 31, 2025 there is no project classified as Intangible Asset under Development whose completion is overdue or has exceeded the cost based on original approved plan.

Closing balance	**(34.55)**	**42.81**

(C) **Nature And Purpose of Reserves**

(a) **General reserve**
Under the erstwhile Companies Act 1956, general reserve was created through an annual transfer of net income at a specified percentage in accordance with applicable regulations. The purpose of these transfers was to ensure that if a dividend distribution in a given year is more than 10% of the paid-up capital of the Group for that year, then the total dividend distribution is less than the total distributable results for that period. Consequent to introduction of Companies Act 2013, the requirement to mandatorily transfer a specified percentage of the net profit to general reserve has been withdrawn. However, the amount previously transferred to the general reserve can be utilised only in accordance with the specific requirements of Companies Act, 2013.

(b) **Share based payment reserve**
The share based payment reserve is used to recognise the grant date fair value of options issued to employees under Employee stock option plan.

(c) **Retained earnings**
Retained Earnings are profits that the Group has earned till date less transfer to General Reserve, dividend or other distribution or transaction with shareholders. Retained Earnings includes re-measurement gain/(loss) on defined benefit plans, net of taxe that will not be reclassified to statement of profit and loss.

(d) **Securities premium**
The amount received in excess of face value of the equity shares is recognised in securities premium. The reserve can be utilised only for limited purposes such as issuance of bonus shares or redemption of preference shares in accordance with the provisions of the Companies Act, 2013.

(e) **Capital Reserve**
Capital Reserve represents the amount recorded on derecognition of carrying value of equity shares invested by India Agri Business Fund II Limited ("Investor") and recognised as equity after adjusting the equivalent amount of par value of such equity shares recorded as equity share capital and equivalent amount of security premium invested by the investor.

S.R. BATLIBOI & CO. LLP
NEW DELHI

(f) Non-controlling interest reserve

In accordance with the applicable accounting principles, difference between the fair value of interest acquired, being recognised in the standalone financial statements and carrying value of non-controlling interest, being recorded at cost in the consolidated financial statements, in relation to-such non controlling interest has been recorded as 'non-controlling interest reserve'.
During the current year, the Holding Company has acquired 12.05% holding of non controlling interest in its subsidiary company namely. "Crimsun Organics Private Limited" for Rs. 237.92 millions. Out of this Rs.126.19 millions has been paid during the year and Rs.111.73 millions was outstanding as on March, 31 2026 (refer note 12D). The difference between carrying value of non controlling interest amounting Rs. 64.64 millions as on date of share purchase and purchase consideration amounting to Rs. 237.92 millions has been recorded as adjustment on account of acquisition of non-controlling interest and the net amount of Rs. 173.28 millions has been disclosed as 'non-controlling interest reserve'.

(g) Exchange differences on translating the financial statements of a foreign operation

The exchange differences arising on translation of foreign operations for consolidation are recognised as Foreign currency translation reserve in other comprehensive income. On disposal of a foreign operation, the component of OCI relating to that particular foreign operation is recognised in statement of profit and loss.

(D) Dividend paid and proposed

	For the year ended March 31, 2026	For the year ended March 31, 2025
Dividends on equity shares declared and paid:		
Final dividend for the year ended on March 31, 2025: Rs 0.50 per share (March 31, 2024: Rs. 1.00 per share)	29.64	29.64
	29.64	**29.64**
Proposed dividends on equity shares		
Final dividend for the year ended on March 31, 2026: NIL (March 31, 2025: Rs. 0.50 per share)	-	29.64
Interim dividend for the year ended on March 31, 2026: Rs. 0.50 per share (proposed and paid after March 31, 2026) (March 31, 2025: Rs NIL)*	29.83	-
	29.83	**29.64**

Notes:

The Board of Directors of the holding company approved a reduction in the face value of equity shares from Rs 10 per share to Rs 5 per share accordingly total number of shares are increased from 2,96,39,587 to 5,92,79,174. Consequent to this reduction, the proposed dividend for the financial year ended March 31, 2025 has been revised from Rs 1.00 per share to Rs 0.50 per share.

*Subsequent to March 31, 2026, the holding company has proposed interim dividend for the financial year ended March 31, 2026 amounting Rs. 0.50 per share to its shareholders existing as on record date (March 31, 2025: Rs.NIL), which will be paid after March 31, 2026.

*includes Rs. 0.79 millions (March 31, 2025 Rs. 0.02 millions) pertains to outstanding dues of micro enterprises and small enterprises.

a) Terms and conditions of the supplier finance arrangement

The Group participates in supplier finance arrangements through digital invoice discounting platforms, including the Trade Receivables Discounting System (TReDS). Such arrangements is primarily available to suppliers opting for settlement of invoices under the supplier finance arrangement. Participating suppliers are paid for their invoices by third-party finance providers, primarily scheduled banks.

Upon payment to suppliers by the finance providers, the Group's liability to the supplier is extinguished and therefore corresponding trade payable is derecognised and a new financial liability towards the finance provider is recognised under the head "other financial liabilities" as payable under supplier finance arrangement. The arrangement has been established to ease the administrative burden of managing invoices from a significant number of suppliers, rather than to obtain financing. Also, no fund based or other limits provided by the banks is utilised for this arrangement.

i) **Following is the disclosure required under Paragraph 44H(b) of Ind AS 7 'Statement of Cash Flows':**

Particulars	As at March 31, 2026	As at March 31, 2025
Carrying amount of financial liabilities that are part of a supplier finance arrangement:		
Presented within trade payables and other fin	784.52	434.77

	12,067.03	**10,453.39**

c. **Contract balances**

Particulars	As at March 31, 2026	As at March 31, 2025
Trade receivables {refer note 9(A)}	5,944.13	4,821.00
Contract liabilities (refer note 13(A))	209.28	244.72

Trade receivables are generally on terms of 90 to 245 days. Interest on delay in payments from customers (if any) is recognised as per the terms of contract and when reasonably certain to received. Contract assets relate to revenue earned from the satisfaction of performance obligations. Accordingly, the balance of this account varies depending on the number of performance obligations satisfied as at the end of the reporting period.

Contract liabilities consist of short-term advances received from customer to supply goods against the same

The decrease in contract liabilities for the year ended March 31, 2026 was primarily due to the satisfaction of performance obligations during the period against advances amounting to Rs. 35.44 millions received from customers.

d. **Right of Return Assets and Refund Liabilities**

Particulars	As at March 31, 2026	As at March 31, 2025
Right of return assets (refer note 8)	613.25	332.40

	5.93	6.09

*Audit fees (including reimbursement of expenses) for the year ended March 31, 2026 excludes amount of Rs. 13.16 millions pertaining to IPO expenses which will be recovered from the selling shareholders as per the offer agreement.

25 COMMITMENTS AND CONTINGENCIES

Particulars	As at March 31, 2026	As at March 31, 2025
A Contingent Liabilities		
(a) Claims/suits filed against the Group not acknowledged as debts {refer note (i) below}	19.86	23.07
(b) Disputed tax liabilities in respect of pending litigations before appellate authorities{refer note (ii)	39.52	60.79
(c) Others {refer note (iii) below}	54.93	54.93
	114.31	**138.79**

Note:

i) Claims / suits filed against the Group not acknowledged as debts represents various legal cases filed against the Group on account of labour disputes, accidental claims, product claims and technical product failures etc. The Group has disclaimed the liability and defending the action. The Group has been advised by its legal counsel that its position is likely to be upheld in the litigation process and accordingly no provision for any liability has been made in the restated consolidated summary statements.

ii) Disputed tax liabilities are on account of disallowances / additions made by goods and service tax department and custom department. The Group is contesting the demands and the management, including its tax advisors, believe that its position will likely to be upheld in the appellate process and accordingly no provision has been accrued in the consolidated financial statements for the tax demand raised. The management believes that the ultimate outcome of this proceeding will not have a material adverse effect on the Group's financial position and results of operations. Futher, the Group has received show cause notices from various departments which have not been treated as contingent liabilities, since the Group has adequately represented to the concerned departments and does not expect any liability on this account.

Also, in respect of tax cases, where the time period has lapsed and no appeal or reply has been filed by the department, the management is of the view that there is no contingent liability for the Year ended March 31, 2026.

iii) The Group had received refund of terminal excise duty during the financial years 2014-15 and 2015-16 from the Director of Foreign Trade (DGFT), Ahmedabad on the basis of issuance of an Advance Release Order (ARO) by DGFT, Mumbai. On November 28, 2019, the Additional Director of Foreign Trade, Ahmedabad has issued show cause notice (which is primary stage of adjudication) stating that the refunds were erroneously paid by this office and directed to pay back the amount of Rs. 54.93 millions along with interest @15% (March 31, 2025: Rs 54.93 millions along with interest @15%). The Additional Director of Foreign Trade, Ahmedabad has also provided an opportunity to the Group to appear before the Authority which is mandatory requirement before adjudicating. In terms of the provisions of the Act, the Group has filed the writ petition before Hon'ble Gujarat High Court against the Show Cause Notice challenging the legality of the notice and the Hon'ble court has granted interim relief and also stayed the show cause notice proceedings. During the year ended March 31, 2021, DGFT has filed their affidavit in reply before the honourable court and the Group has subsequently filed affidavit in-rejoinder. The matter is pending for arguments. The management basis its assessment based on past legal precedents believes there are low chances of this liability being materialised hence disclosed as contingent liability.

*Bank Guarantees: The group has outstanding bank guarantees aggregating to Rs. 0.20 millions issued by IndusInd Bank in favor of the Hon'ble Civil Judge, Junior Division, Ludhiana, in connection with litigation proceedings. The guarantee is valid up to March 11, 2028 and represents a contingent liability as at the reporting date.

Bank Guarantees: The group has issued performance bank guarantees amounting to Rs. 0.16 millions in favour of OAIC Ltd., Bhubaneswar, in the ordinary course of business for execution of supply contracts. The guarantee is valid up to June 30, 2026 and has been disclosed as a contingent liability.

B Capital and other commitments

Particulars	As at March 31, 2026	As at March 31, 2025
(I) Estimated amount of capital contracts remaining to be executed and not provided for	145.09	175.15
Less: Capital advances (refer note 7)	(22.50)	(62.60)
	122.59	**112.55**

(II) In respect of one of the subsidiary company namely, "Crimsun Organics Private Limited", as per Clause no. 10(xviii) of the EC letter F. No. IA-J-11011/207/2018-IA II(I) dated 28th March 2019 issued by MoEF & CC, the subsidiary company is committed for allocation of funds for the Corporate Environment Responsibility (CER) which shall be 5% of the total project cost. The total project cost that has been approved under the EC letter is Rs. 306.00 millions and accordingly the CER spend will be Rs. 15.30 millions out of which the subsidiary company has already spent Rs. 5.68 millions upto March 31, 2026 (March 31, 2025: Rs. 5.28 millions).

C Corporate Guarantee given to Axis bank Limited amounting to Rs. 144.66 million (March 31, 2025 : Rs 144.66 million) and Bajaj Finance Limited amounting to Rs.100 million (March 31, 2025: Rs 100.0 million) for facilities availed by one of its subsidiary Company namely "Crimsun Organics Private Limited" for working capital and term loan facilities. Outstanding of Term loan from Axis Bank Limited as at March 31, 2026 is Rs 13.66 million (March 31, 2025 is Rs 24.66 million), Bajaj Finance Limited were Rs 27.22 million (March 31, 2025 Rs. 33.89 million) and letter of credit from Axis bank limited is Rs 33.14 million (March 31, 2025 Rs 47.68 million). The Company based on assessment of financial position and business plans in place, believes that chances of materialising this liability is remote.

D Corporate Guarantee given to IndusInd Bank Limited amounting to Rs. 185.00 million (March 31, 2025 : Rs 185.00 million) for facilities availed by one of its subsidiary Company namely "Leeds Life Sciences Private Limited" for working capital and term loan facilities. Letter of credit amounting to Rs. 129.96 million (March 31, 2025 : Rs 46.19 million). The Company based on assessment of financial position and business plans in place, believes that chances of materialising this liability is remote.

26 OTHER NOTES ON ACCOUNTS

1 Disclosures pursuant to Ind AS - 19 "Employee Benefits" are given below :

(A) Defined Contribution Plan

The Group makes contributions, determined as a specified percentage of employee salaries, in respect of qualifying employees towards Provident Fund and ESI which are defined contribution plans. The Group has no obligations other than to make the specified contributions. The contributions are charged to consolidated statement of profit and loss as they accrue.

The Group has recognised the following amount as an expense and included in the Note 21 under "Contribution to provident funds and other funds"

Particulars	For the year ended March 31, 2026	For the year ended March 31, 2025
Employer's Contribution towards Provident fund (PF)	28.30	23.21
Employer's Contribution towards Employee state insurance (ESI)	0.26	0.50
	28.56	**23.71**

(B) Bifurcation of projected defined benefit plans obligations at the end of the year in current and non current

Particulars	March 31, 2026		March 31, 2025	
	Non Current	Current	Non Current	Current
Gratuity	81.58	-	59.77	-
Compensated absences	0.00	62.20	-	49.06
Total	**81.58**	**62.2**	**59.77**	**49.06**

(C) Amount recognised in Exceptional items:

Particulars	March 31, 2026	March 31, 2025
Gratuity	11.75	-
Compensated absences	7.82	-
Total	**19.57**	-

On November 21, 2025, the Government of India notified four new Labour Codes (the Code on Wages, 2019, the Code on Social Security, 2020, the Industrial Relations Code, 2020 and the Occupational Safety, Health and Working Conditions Code, 2020) consolidating 29 existing labour laws. The Ministry of Labour & Employment published Central Rules and FAQs to enable assessment of the financial impact due to changes in regulations. The Group has assessed and accounted for the incremental impact of these changes with the best information available and as per guidance provided by the Institute of Chartered Accountants of India. The impact of the above change amounting to Rs. 19.57 millions has been disclosed as "Exceptional items" in the consolidated financial statements for the year ended March 31, 2026. The Group continues to monitor the finalization of State Rules and clarifications from the Government on other aspects of the Labour Codes and would provide appropriate accounting effect as and when such clarifications are issued/rules are notified.

(D) Defined Benefit Plan - Gratuity

The Group has a defined benefit gratuity plan for employees in India as per the Code of Social Security 2020. Every employee who has completed at least five years of continuous service gets a gratuity on departure at 15 days of last drawn wages for each completed year of service. The scheme is funded with Life Insurance Corporation of India and HDFC Life Insurance Company Limited in form of a qualifying insurance policy and is managed by Gratuity Trust. The present value of obligation is determined based on actuarial valuation using the project unit credit method, which recognises each period of service as giving rise to additional unit of employee benefit entitlement and measures each unit separately to build up the final obligation.

Each year, the Group reviews the level of funding in the India gratuity plan. Such a review includes the asset-liability matching strategy and investment risk management policy. The Group decides its contribution based on the results of this annual review.

The following tables summaries the components of net benefit expense recognised in the consolidated statement of profit and loss and the funded status and amounts recognised in the balance sheet for the gratuity plans -

Particulars	For the year ended March 31, 2026	For the year ended March 31, 2025

Non-Current liability	(81.58)	(59.77)
	(81.58)	**(59.77)**

Particulars	For the year ended March 31, 2026	For the year ended March 31, 2025
f) Broad categories of plan assets as a percentage of total assets		
Funds managed by insurer (Life Insurance Corporation and HDFC Life Insurance)	100.00%	100.00%
g) Principal assumptions used in determining defined benefit obligation		
Mortality Table	100% of IALM 2012-14	100% of IALM 2012-14
Normal retirement age	65 years for Directors 58 to 60 years for other employees	65 years for Directors 58 to 60 years for other employees
Discount rate (per annum)	6.85%- 7.25%	6.65%- 7.20%
Future Salary increase (per annum)	8.00%- 9.50%	8.00%- 9.50%
Attrition rate	5.00%-21.70%	5.00%-10.00%

h) Quantitative sensitivity analysis for significant assumptions is as below:

Increase / (decrease) on present value of defined benefits obligations at the end of the year:

Discount Rate		
Increase by 1%	(5.96)	(6.74)
Decrease by 1%	6.75	7.84
Salary Increase		
Increase by 1%	4.49	5.84
Decrease by 1%	(4.38)	(5.48)
Attrition Rate		
Increase by 50%	(2.79)	(3.27)
Decrease by 50%	4.52	5.13
Mortality Rate		
Increase by 10%	0.02	(0.01)
Decrease by 10%	0.00	0.01

i) The following payments are expected contributions to the defined benefit plan in future years

Within the next 12 months (next annual reporting period)	12.49	7.14
Between 2 and 5 years	43.62	26.04
Between 6 and 10 years	43.77	35.79
Beyond 10 years	73.95	104.18

S.R. BATLIBOI & CO. LLP
NEW DELHI

j) The weighted average duration of the defined benefit plan obligation at the end of the reporting period/year is 7 -12 years (March 31, 2025: 9-12 years)

k) The plan assets are maintained with Life Insurance Corporation (LIC) of India and HDFC Life Insurance Company Limited in case of parent company and in subsidiary companies "Crimsun Organics Private Limited" and "Leeds Life Science Private Limited" are with HDFC Life.

l) The Group expects to contribute Rs 95.73 millions (March 31, 2025: Rs 72.62 millions) to the plan assets during the next year.

m) The estimates of rate of escalation in salary considered in actuarial valuation are after taking into account inflation, seniority, promotion and other relevant factors including supply and demand in the employment market. The above information is as certified by the Actuary.

n) Discount rate is based on the prevailing market yields of Indian Government securities as at the balance sheet date for the estimated term of the obligations.

o) The sensitivity analysis above have been determined based on a method that extrapolates the impact on defined benefit obligation as a result of reasonable changes in key assumptions occurring at the end of the reporting year.

2 Segment Reporting

As per Ind AS-108, "Operating Segment" (specified under the section 133 of the Companies Act 2013 (the Act) read with Companies (Indian Accounting Standards) Rule 2015 (as amended from time to time) and other relevant provision of the Act) the Group's chief operating decision maker ('CODM') has identified that the Group's business activity falls within a single operating segment which is the production of agrochemical products and other related products and hence Group operates in a single business segment based on the nature of the products, the risk and returns, organisation structure and the internal financial reporting systems. Therefore, there is no reportable segment for the Group as per the requirement of Ind AS-108 "Operating Segments".

Geographical Information

The "Geographical Segments" comprises of domestic segment which includes sales to customers located in India and the overseas segment includes sales to customers located outside India.

The following is the distribution of Group's revenue by geographical market, regardless of where the goods were produced.

Notes:

(i) All the liabilities for post retirement benefits being 'Gratuity' are provided on actuarial basis for the Group as a whole, accordingly the amount pertaining to Key Managerial personnel are not included above.

(ii) The remuneration to the key managerial personnel does not include leave benefits, as they are determined on an actuarial basis for the group as a whole.

(iii) The remuneration to the key managerial personnel does not include ESOP.

(iv) The remuneration to directors and their relatives do not includes amount towards keyman insurance.

(v) The transactions with related parties are made on terms equivalent to those that prevail in arm's length transactions. Outstanding balances at the year-end are unsecured and interest free (except loans). The settlement for these balar guarantees provided or received for any related party receivables or payables. For the year ended March 31, 2026, this assessment is undertaken each financial year through examining the financial position of the related party and the mark

(vi) Transactions with related parties are reported net of Goods and Service Tax (GST).

(vii) **Terms and consitions of transaction with related parties:**

(a) **Revenue :-** Sales are made to related parties on the same terms as applicable to third parties in an arm's length transaction and in the ordinary course of business. The Group mutually negotiates and agrees sales price, discount and p benchmarking the same to transactions with non-related parties, who purchase goods and services of the Group in similar quantities. Such sales generally include payment terms requiring related party to make payment within 180 days fro

(b) Trade receivables:- Trade receivables outstanding balances are unsecured, interest free and require settlement in cash. No guarantee or other security has been received against these receivables. The amounts are recoverable within 31, 2025: within 180 days from the reporting date). For the year ended March 31, 2026, the Group has not recorded any impairment on receivables due from related parties (March 31, 2025: Nil).

(c) Compensation to KMP of the Group:- The amounts disclosed in the above table are the amounts recognised as an expense during the financial year related to KMP. The amounts do not include expense, if any, recognised toward p term benefits of key managerial personnel. Such expenses are measured based on an actuarial valuation done for each Company in the Group as a whole. Hence, amounts attributable to KMPs are not separately determinable.

4 Fair value measurements

The carrying value and fair value of financial instruments by categories as at March 31, 2026 and March 31, 2025 were as follows:

Particulars	Carrying Value		Fair Value	
	As at March 31, 2026	As at March 31, 2025	As at March 31, 2026	As at March 31, 2025
Financial instruments by category				
Financial assets measured at amortized cost				
Trade receivables {Refer note 9 (A)}*	5,944.13	4,821.00	5,944.13	4,821.00
Cash and cash equivalents {Refer note 9 (B)}*	99.65	155.41	99.65	155.41
Bank balances other than above {Refer note 9 (C)}*	36.29	83.40	36.29	83.40
Loans (current and non-current) {Refer note 9(D) and 5(A)}*	24.84	25.34	24.84	25.34
Other financial assets (current and non-current) {Refer note 9(E) and 5(B)}*	228.85	64.24	228.85	64.24
Financial assets at fair value through profit and loss				
Derivative instrument - foreign currency forward contract (refer note 9 (E))	20.22	-	20.22	-
	6,353.98	**5,149.39**	**6,353.98**	**5,149.39**
Financial liabilities measured at amortized cost				
Borrowings (current and non-current) {Refer note 12(A)}#	3,556.51	2,767.54	3,556.51	2,767.54
Trade payables {Refer note 12(C)}#	2,232.97	2,405.85	2,232.97	2,405.85
Other financial liabilities (current) {Refer note 12(D)}#	1,273.82	892.09	1,273.82	892.09
Financial liabilities at fair value through profit and loss				
Derivative instrument - foreign currency forward contract (refer note 12(D))	-	27.46	-	27.46
	7,063.30	**6,092.94**	**7,063.30**	**6,092.94**

*The management assessed that fair value of trade receivables, cash and cash equivalent and bank balances, loans, other financial assets approximate their carrying amounts largely due to the short-term maturities of these instruments.

#The management assessed that fair value for financial instruments carried at amortised cost such as current borrowings, trade payables and other financial liabilities, approximate their carrying amounts largely due to the short-term maturities of these instruments.

The fair value of the financial assets and liabilities is included at the amount at which the instrument could be exchanged in a current transaction between willing parties, other than in a forced or liquidation sale. The following methods and assumptions were used to estimate the fair values:

1) The fair value of financial liabilities is measured at amortised cost except for financial liability measured at FVTPL, estimated by discounting future cash flows using rates currently available for debt on similar terms, credit risk and remaining maturities. These unobservable inputs are estimated by management and management regularly assesses a range of reasonably possible alternatives for those significant unobservable inputs and determines their impact on the total fair value. The fair value of the financial liabilities measured at FVTPL are estimated as per independent value report.

2) Long-term receivables/payables are evaluated by the Group based on parameters such as interest rates, risk factors, individual creditworthiness of the counterparty and the risk characteristics of the financed project. Based on this evaluation, allowances are taken into account for the expected credit losses of these receivables.

3) The fair values of the Group's interest - bearing borrowings are determined by using effective interest rate (EIR) method using discount rate that reflects the issuer's borrowings rate as at the end of the reporting period. . The own non- performance risk as at March 31, 2026 and March 31, 2025 was assessed to be insignificant.

4) The Group has entered into derivative financial instruments with various banks. Foreign exchange forward contracts are valued using valuation techniques, which employs the use of market observable inputs. As at year end, the mark-to-market value of other derivative asset positions is net of a credit valuation adjustment attributable to derivative counterparty default risk. The changes in counterparty credit risk had no material effect on the financial instruments recognised at fair value.

5) **Fair value hierarchy**

The Group uses the following hierarchy for determining and disclosing the fair value of financial instruments by valuation technique:

Level 1: The fair value of financial instruments traded in active markets is based on quoted (unadjusted) market prices at the end of the reporting period for identical assets or liabilities.

Level 2: The fair value of financial instruments that are not traded in an active market is determined using valuation techniques which maximise the use of observable market data and rely as little as possible on entity-specific estimates. If all significant inputs required to fair value an instrument are observable, the instrument is included in level 2.

Level 3: If one or more of the significant inputs is not based on observable market data, the instrument is included in level 3. This is the case for unlisted equity securities, contingent consideration and indemnification asset included in level.

There are no transfers among level 1, 2 and 3 during the year.

Quantitative disclosures of fair value measurement hierarchy for assets and liabilities as on March 31, 2026

Particulars	Carrying Value	Quoted prices in active markets (Level 1)	Significant observable inputs (Level 2)	Significant unobservable inputs (Level 3)
Assets measured at fair value				
Derivative instrument - foreign currency forward contract*	20.22	-	20.22	-

Quantitative disclosures of fair value measurement hierarchy for assets and liabilities as on March 31, 2025

Particulars	Carrying Value	Quoted prices in active markets (Level 1)	Significant observable inputs (Level 2)	Significant unobservable inputs (Level 3)
Financial liabilities measured at fair value				
Derivative instrument - foreign currency forward contract*	27.46	-	27.46	-

There have been no transfers between Level 1 and Level 2 during the year.

*The value of Derivative instrument - foreign currency forward contract measured at level 2 are driven by the prevailing local inter-bank rate.

S.R. BATLIBOI & CO. LLP
NEW DELHI

5.1 Foreign exchange forward contracts

The Group has entered into other foreign exchange forward contracts with the intention of reducing the foreign exchange risk of foreign currency receivables and are entered into for periods consistent with foreign currency exposure of the underlying transactions. These contracts are not designated in hedge relationships and are measured at fair value through profit and loss.

Nature of contracts	Currency Hedged	March 31, 2026		March 31, 2025	
		Outstanding Foreign Currency	Amount (Rs. Millions)	Outstanding Foreign Currency	Amount (Rs. Millions)
Forward exchange contracts (Trade Receivables)	USD	9.11	859.40	6.73	575.67
Forward exchange contracts (Trade Receivables)	EURO	3.92	424.36	9.41	871.76
Forward exchange contracts (Trade Payables)	USD	18.71	1,765.17	18.16	1,553.85

Fair value (Loss)/gain on financial instruments measured at fair value amounting to Rs. 47.69 millions (March 31, 2025: Rs. (49.71) millions) have been recognised as expense/income in statement of profit and loss account

5.2 Financial risk management objectives and policies

The Group's principal financial liabilities comprise loans and borrowings, trade payables and other financial liabilities. The main purpose of these financial liabilities is to finance the group's operations. The Group's principal financial assets include loans, trade and other receivables, and cash and cash equivalents that are derived directly from its operations.

The Group's financial risk management is an integral part of how to plan and execute its business strategies. The group is exposed to market risk, credit risk and liquidity risk. The group's senior management oversees the management of these risks. The senior professionals working to manage the financial risks and the appropriate financial risk governance framework for the group are accountable to the Board of Directors and Audit Committee forms for the purpose of good corporate governance. This process provides assurance to group's senior management that the group's financial risk-taking activities are governed by appropriate policies and procedures and that financial risk are identified, measured and managed in accordance with group policies and group risk objective. In the event of crisis caused due to external factors, the management assesses the recoverability of its assets, maturity of its liabilities to factor it in cash flow forecast to ensure there is enough liquidity in these situations through internal and external source of funds.

The Board of Directors reviews and agrees policies for managing each of these risks which are summarized as below:

(a) Market Risk

Market risk is the risk that the fair value of future cash flows of a financial instrument will fluctuate because of changes in market prices. Market prices comprises three types of risk: currency rate risk, interest rate risk and other price risks, such as commodity price risk. Financial instruments affected by market risks include loans and borrowings, other financial liabilities and foreign currency receivables and payables. The sensitivity analysis in the following sections relate to the position as at the date of financial statements. The analysis exclude the impact of movements in market variables on: the carrying values of gratuity and other post-retirement obligations, provisions, and the non-financial assets and liabilities. The sensitivity of the relevant Profit and Loss item is the effect of the assumed changes in the respective market risks. This is based on the financial assets and financial liabilities held as at the date of financial statements.

(i) Foreign Currency Risk

Foreign currency risk is the risk that the fair value or future cash flows of an exposure or a financial instrument will fluctuate because of changes in foreign exchange rates. Foreign currency risk arises from future commercial transactions and recognised in assets and liabilities denominated in foreign currency . The Group manages its foreign currency risk through foreign exchange forward contracts to hedge its outstanding exposure. The spot component of forward contracts is determined with reference to relevant spot market exchange rates. The differential between the contracted forward rate and the spot market exchange rate is defined as the forward points. The Group's exposure to the risk of changes in foreign exchange rates relates primarily to the Group's operating activities (when revenue or expense is denominated in foreign currency) The Group manages its foreign currency risk partly by taking forward exchange contract for transactions of sales and purchases and partly balanced by purchasing of goods services from the respective countries. The Group evaluates exchange rate exposure arising from foreign currency transactions and follows established risk management policies

Foreign currency risk sensitivity

The following tables demonstrate the sensitivity to a reasonably possible change in currency exchange rates, with all other variables held constant. The impact on the Group profit before tax is due to changes in the fair value of monetary assets and liabilities as given below

Particulars of un-hedged foreign currency exposure is as follows:*

Currency	Un hedged Exposure as at March 31, 2026			Un hedged Exposure as at March 31, 2025

(ii) Interest Rate Risk

Interest rate is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market interest rates. The Group's exposure to the risk of changes in market interest rates relates primarily to the Group's borrowings at floating interest rates. The Group manages its interest rate risk by having a balanced portfolio of fixed and variable rate borrowings. The Group's borrowings outstanding also comprise of fixed rate loan (term loan taken by the Group) and accordingly is exposed to risk of fluctuation in market interest rate.

The Group has following fixed rate and variable borrowings :-

Particulars	As at March 31, 2026	As at March 31, 2025
Floating rate borrowings	3,222.75	2,731.04
Fixed rate borrowings	333.76	36.50
	3,556.51	2,767.54

Interest rate Sensitivity of borrowings

Particulars	As at March 31, 2026		As at March 31, 2025	
	Increase/ decrease in basis points	Impact on profit before tax ((loss)/gain)	Increase/ decrease in basis points	Impact on profit before tax ((loss)/gain)
Borrowings (Rs.)	+50	(16.11)	+50	(13.66)
	-50	16.11	-50	13.66

(iii) Commodity Price Risk

The Group is affected by the price volatility of certain commodities. Its operating activities require the ongoing manufacturing and trading of agrochemical products and therefore require a continuous supply of technical chemicals, solvents, emulsifiers, packing material etc., being the major input used in the manufacturing and trading. Due to international environmental regulations, the prices of the technical chemicals used as input witnessed volatility in the markets and also might lead to a situation of increase in lead time to procure the goods. The Group has entered into various purchase contracts for these material for which there is an active market and developed alternative source. The Group's management has developed and enacted a risk management strategy regarding commodity price risk and its mitigation through its procurement and production strategy. The Group partly mitigated the risk of price volatility by entering into the contract for the purchase of these material based on average price.

(b) Credit Risk

Credit Risk is the risk that the counter party will not meet its obligation under a financial instrument or customer contract, leading to a financial loss. The Group is exposed to credit risk principally from its operating activities (primarily trade receivables) and also from its financing activities, including deposits with banks, foreign exchange transactions and other financial instruments.

(i) Credit risk management

The Group's assesses and manages credit risk of financial assets based on following categories arrived on the basis of assumptions, inputs and factors specific to the class of financial assets
A: Low credit risk

B: Moderate credit risk

C: High credit risk

The Group provides for expected credit loss based on the following:

Asset group	Description	Provision for expected credit loss*
Low credit risk	Cash and cash equivalents, other bank balances, loans, investments, trade receivables and other financial assets	12 month expected credit loss/ lifetime expected credit loss
Moderate credit risk	Trade Receivables	12 month expected credit loss/ lifetime expected credit loss
High credit risk	Not applicable	Not applicable

**Lifetime expected credit loss is provided for trade receivables*

Based on business environment in which the Group operates, a default on a financial assets is considered when the counter party fails to make payments within the agreed tiem period as per contract. Loss rates reflecting defaults are based on actual credit loss experience and considering differences between current and historical economic conditions.

Assets are written off when there is no reasonable expectation of recovery, such as a debtor declaring bankruptcy, or a litigation decided against the Group. The Group continues to engage with parties whose balances are written off and attempts to enforce repayment. Recoveries made are recognised in statement of profit and loss.

Assets under credit risk:

Credit rating	Particulars	March 31, 2026	March 31, 2025
A: Low credit risk	Cash and cash equivalents, other bank balances, loans, investments, trade receivables and other financial assets	6,353.98	5,149.39
B: Moderate credit risk	Trade Receivables	308.22	273.01

(ii) Trade Receivables

Customer credit risk is managed by each customer segment department subject to the Group's established policy, procedures and control relating to customer credit risk management (including credit approvals, establishing credit limits and continuously monitoring the creditworthiness of customers to which Group grants credit term in normal course of business). Credit quality of a customer is assessed by the Group on various parameters by its credit control department. Outstanding customer receivables are regularly monitored and any shipments to major customers are generally covered by letters of credit or other forms of credit insurance obtained from reputable banks and other financial institutions to secure the risk of default by the customers. Moreover, given the diverse nature of the Group's businesses trade receivables are spread over a number of customers with no significant concentration of credit risk.

An impairment analysis is performed at each reporting date on trade receivables by lifetime expected credit loss method based on provision matrix. The provision rates are based on days past due for grouping of various customers based on their segment type. The maximum exposure to credit risk at the reporting date is the carrying value of each class of financial assets. The Group does not hold collateral as security. The letters of credit and other forms of credit insurance are considered integral part of trade receivables and considered in the calculation of impairment. The Group evaluates the concentration of risk with respect to trade receivables as low, as its customers are located in several jurisdictions and industries and operate in largely independent markets.

(iii) Financial instruments and cash deposits

The Group holds bank balances with reputed and creditworthy banking institution within the approved exposures limit of each bank. None of the Group's cash equivalents, including deposits with banks, are past due or impaired. Credit risk from balances with banks and financial institutions is managed by the Group's treasury department in accordance with the Group's policy. Investments of surplus funds if any are made in bank deposits. The limits are set to minimize the concentration of risks and therefore mitigate financial loss through counterparty's potential failure to make payments. The Group is also exposed to credit risk in relation to loans and financial guarantees given to/ on behalf of subsidiaries.
The Group's maximum exposure to credit risk for the components of the balance sheet at March 31, 2026 is the carrying amounts. The Group's maximum exposure relating to financial assets is noted in liquidity table below. Trade Receivables and other financial assets are written off when there is no reasonable expectation of recovery, such as debtor failing to engage in the repayment plan with the Group.

Particulars	As at March 31, 2026	As at March 31, 2025
Neither past due nor impaired'	4,225.68	3,416.78
0 to 180 days due past due date	1,061.69	1,397.12
More than 180 days past due date	656.76	7.10
Total Trade Receivables	**5,944.13**	**4,821.00**

(v) **The following table summarizes the change in impairment allowance measured using the life time expected credit loss model:**

Particulars	For the year ended March 31, 2026	For the year ended March 31, 2025
As at the beginning of year	273.01	352.21
Impairment allowance for expected credit loss for during the year (refer note 24)	77.21	15.07
Utilisation of provision during the year	(42.00)	(94.27)
As at the end of year	**308.22**	**273.01**

(c) Liquidity risk

Liquidity risk is defined as the risk that the Group will not be able to settle or meet its obligations on time or at reasonable price. The Group's objective is to at all times maintain optimum levels of liquidity to meet its cash and liquidity requirements. The Group closely monitors its liquidity position and deploys a robust cash management system. It maintains adequate source of financing through the use of working capital and cash credit facility. Processes and policies related to such risks are overseen by senior management. Management monitors the Group's liquidity position through rolling forecasts on the basis of expected cash flows.

The table below summarises the maturity profile of the Group's financial liabilities based on undiscounted contractual maturities:

As at March 31, 2026	less than 1 years	1-5 years	More than 5 years	Total
Borrowings(including interest accrued)	3,314.62	241.89	-	3,556.51
Trade payables	2,232.97	-	-	2,232.97
Lease liability (Undiscounted)	53.89	64.83	-	118.72

6 Share based payments

(A) Employee Stock Option Scheme (ESOP Scheme)

The Holding Company has issued stock options (Equity settled) to its employees in accordance with the Holding Company's Employee Stock Option Scheme 2017. The scheme has been adopted by the Board of Directors on September 27, 2017 and the same was approved by the members of the Holding Company on September 29, 2017. The scheme is administered by the Parijat Employees Welfare Trust established by the Group for extending benefits of the scheme to the existing and future employees of the Holding Company. The maximum number of options that may be issued pursuant to this scheme shall not exceed 2% of the paid up share capital of the Holding Company on fully diluted basis, which shall be convertible into equal number of Equity Shares of the Holding Company at the time of the Exercise of such options by the Grantee. All the permanent employees of the Holding Company except the promoter, or any director holding more than 10% of the outstanding equity shares of the Holding Company, are eligible to participate in the schemes. The Committee grants stock options to the employees at its discretion depending upon criteria such as performance of the employee, loyalty with the Holding Company, future potential of the employee and/or such other criteria that may be determined by the Committee.

The stock option shall vest from the date of grant and shall not exceed beyond four years from the date of grant provided the requisite vesting conditions are fulfilled by the option holders. The exact vesting period applicable to each grant shall be stated in each grant letter. The exercise period shall commence from the date of vesting period and can extend up to three years from the date of grant of options or such other period as may be decided by the Board and stated in the grant letter along with the exercise price. As per ESOP policy of the Holding Company for options granted up to March 31, 2023, vested options may be exercised up to December 31, 2026 or the date of the Company's IPO, whichever is earlier, subject to compliance with the minimum vesting period and other terms of the ESOP Scheme. Unexercised options shall lapse upon expiry of the exercise period. The exercise price, in cash, is paid by the employee at the time of exercise of the stock option. The option automatically lapses if not exercised at the end of exercise period. The lapsed option is available for being re-granted/ re-issued at a future date. The maximum number of options that may be granted to any specific employee is up to 1 % of the issued capital of the holding company as on the date of entitlement of options. The fair value of the share options granted is estimated using the Black Scholes Merton (BSM) Model. The Holding Company shall issue one equity share having face value of Rs 5/- each on payment of exercise price of the Option.

The expense recognised for employee services received during the year is shown in the following table:

Particulars	For the year ended March 31, 2026	For the year ended March 31, 2025
Employee stock option plan	7.05	0.70
	7.05	0.70

Date of Grant	Exercise Period and Vesting	No. of options granted*	Exercise Price Rs.*	Weighted Average Fair	Share option outstanding as at 31/03/2026*	Share option outstanding as at March 31, 2025
November 27, 2017	3 years	2,94,560	5.00	106.04	1,10,892	58,119

7 Capital Management

For the purposes of the Group's capital management, capital includes equity capital, securities premium and all other equity reserves attributable to the equity holders of the Group. The primary objective of the Group's capital management is to safeguard its ability to continue as going concern and to ensure that it maintains an efficient capital structure and maximize shareholder value. The Group manages its capital structure and makes adjustments in light of changes in economic conditions and the requirements of the financial covenants. To maintain or adjust the capital structure, the Group may adjust the dividend payment to shareholders or issue new shares. The Group is not subject to any externally imposed capital requirements. No changes were made in the objectives, policies or processes for managing capital during the year ended March 31, 2026. The Group's policy is to keep the gearing ratio to the minimum.

The Group monitors capital using gearing ratio, which is net debt (interest bearing borrowings less cash and cash equivalents) divided by total capital plus net debt which is summarised as below:

Particulars	As at March 31, 2026	As at March 31, 2025
Borrowings {refer note 12(A)}*	3,556.51	2,767.54
Less: Cash and cash equivalents {refer note 9(B)}	(99.65)	(155.41)
Net Debt (A)	**3,456.86**	**2,612.13**
Equity attributable to owners of the parent {refer note 11(A) and (B)}	3,336.33	2,941.64
Total Capital (B)	**3,336.33**	**2,941.64**
Capital and net debt (C = A+B)	**6,793.19**	**5,553.77**
Gearing ratio (Net Debt/ Capital and Net Debt) (A/C)	**50.89%**	**47.03%**

* Borrowings does not includes lease liabilities.

12 Audit Trail

March 31, 2026
The Holding Company has used a third party accounting software MS Dynamics 365 Business central for maintaining its books of account which includes an audit trail (edit log) facility. The audit trail feature was operational throughout the year for all relevant transactions recorded in the software and operated effectively. Additionally, the database is managed by the service provider, in the absence of audit trail opinion in the SOC report, we are unable to comment on the audit trail feature at the database. Further no instance of audit trail feature being tampered with was noted in respect of accounting software where the audit trail has been enabled. Additionally, the audit trail for the period July 11, 2024 to March 31, 2025 has been preserved by the holding company as per the statutory requirements for record retention to the extent it was enabled and has not been preserved for the financial year ended March 31, 2024 as required by statutory requirements.

March 31, 2025
The holding company has used a third party accounting software MS Dynamics 365 Business central for maintaining its books of account and obtained service organisation control i.e. SOC 1 type 2 report from the provider of accounting software, which includes an audit trail (edit log) facility. However, this feature was operational from July 11, 2024 to March 31, 2025 for all relevant transactions recorded in the software, and it is also not operating effectively at the database level. Further no instance of audit trail feature being tampered with was noted in respect of accounting software(s) where the audit trail has been enabled. Additionally, the audit trail for previous financial years has not been preserved by the holding company in accordance with statutory requirements for record retention.

13 Other Statutory Information

(i) The are no proceesings intiated or are pending against the Group for holding any benami property under the Prohibition of Benami Property Transactions Act, 1988 and rules made thereunder during the financial year and previous year.

(xiv) The Group (as per the provisions of the Core Investment Companies (Reserve Bank) Directions, 2016) does not have Core Investment Company (CIC) during the financial year and previous year.

14 Transfer pricing

The Group has established a comprehensive system of maintenance of information and documents as required by the transfer pricing legislation under Sections 92-92F of the Income-tax Act, 1961. Since the law requires existence of such information and documentation to be contemporaneous in nature, the Group is in the process of updating the documentation for the international transactions entered into with the associated enterprises during the year and expects such records to be in existence latest by such date as required under the law. The management is of the opinion that its international transactions are at arm's length so that the aforesaid legislation will not have any impact on the financial statements, particularly on the amount of tax expense and that of provision for taxation.

15 During the current year, in one of the subsidiary company, Crimsun Organics Private limited ("crimsun"), crimsun has lodged insurance claims in respect of material loss, restoration costs, and business interruption losses arising from the incident held on September 05, 2025 at its manufacturing facility. The claims are under assessment by the insurer and its surveyor, with certain queries raised during the process. Pending completion of the assessment and formal acceptance by the insurance company, the amount ultimately recoverable cannot be determined with reasonable certainty. Accordingly, no insurance claim receivable has been recognised in these restated consolidated summary statements. Any recovery will be recognised in the year in which its realisation becomes nearly certain.

16 The figures have been rounded off to the nearest millions of rupees upto two decimal places. The figure 0.00 wherever stated represents value less than Rs. 5,000/-.
